NICKNAME: **FLEISH**, BUT EBONY ALSO CALLS HIM BRAINIAC & WALKING-ENCYCLOPEDIA

## MOTLEY ~BADGE~

PSYCHIC  
STRENGTHS

**Sensory Skill:** Matter Manipulation or MM—the ability to reconstruct matter on a molecular level. Not be confused with Telekinesis, which is the moving of an object (matter) with the mind.

**Lives with:** Historian father

**Where:** old farmhouse & library barn just down the road from Ebony's house

**Likes:** his pet legless lizard Nigel

**Struggles:** shyness & physical confidence. He's a thinker not a fighter.

**Greatest fear:** pretty much anything that could potentially harm him: animals, insects, germs...

**Greatest wish:** to fact-find forever through travel, archeological digs, & museum visits.

**Best Advice:** listen in school—yes, he's serious—find fun in things that don't seem fun, & cherish your best friends. Oh, and don't ever look into your Headmistress's beady eyes for fear of being fried into a pile of ash on the spot.
