PINE COULEE BULLS, LLC.

WELCOME TO THE 2018 BULL SALE

Fellow Cattlemen,

The Stampfel and Carrel families would like to welcome you to our annual Bull Sale.
Once again we have semen tested, freeze branded, BVD tested and footrot vaccinated the bulls for your convenience. Every bull in our sale has been DNA tested for parentage. The sire lines we are representing in our sale have been time tested for convenience, efficiency and profit traits in our commercial cow herds and through our yearling programs and in the feedlot. If a sire does not work in any of these areas we try not to propagate those genetics in our purebred herds. This offering represents the top 51% of the 2017 bull calf crop.

This year we are offering large sire groups of some of the top Angus sires in the breed. They include Resource, Renown, Knight, Thunder, Broadview, Bank Note, Endgame, Bedrock, Regard and Cutting Edge. All bulls are free of any genetic defects. We spend a lot of time researching sires in an effort to use genetics that fit our environment. We strive to keep our bulls fit and sound and not fed to excess. Our bulls are known for their ability to maximize available forage while producing a product that will push down the scale. Our bulls have been developed on a growing ration to keep them as functional as possible.

At Pine Coulee we are strong believers in the power of the cow. We are rigid in our culling practices with utmost attention to feet, leg and udder quality. This certainly helps us in our arid, rough environment and believe it will help you too.

Our sincere belief that a serious working relationship between the seedstock and commercial producers, at the grass roots level, is an important step to ensure longevity and profitability for both parties.

The Stampfel and Carrel families look forward to a long standing relationship with your operation and appreciate the time you have taken to attend our Bull Sale.

Dollar W is a selection index, expressed in dollars per head to assist beef producers by adding simplicity to genetic selections.

Feedlot Value ($F) an index value expressed in dollars per head, is the expected average difference in future progeny performance for post weaning merit compared to progeny of other sires

Grid Value ($G) an index value expressed in dollars per head, is the expected average difference in future progeny performance for carcass grid merit compared to progeny of other sires.

$F	$W
29.16	30.08
$G	$B

Beef Value ($B) an index value expressed in dollars per head, is the expected average difference in future progeny performance for post weaning and carcass value compared to progeny of other sires.

Adjusted Yearling weight to 365 days adjusted and ratioed by breed computation.

Weight adjusted to 205 days of age by breed computations.

Weaning ratio in contemporary groups.

Sale Terms and Conditions

The auctioneer in charge will settle any disputes as to bids, and his decision on such matters shall be final.

Terms of the sale are cash. The bulls offered for sale are sold under the terms and guarantees recommended by the American Angus Association, with reference to health, freedom from defects, and from both reproductive and specific genetic unsoundness. The recommended refund or adjustments will be made in case animals fail to live up to seller's guarantees. All bulls listed in this catalog are guaranteed to be breeders if not allowed to run with the herd until at least 14 months of age, and if not subjected to gross negligence by the purchaser.

Each bull becomes the risk of the purchaser as soon as sold; but it shall be the obligation of the seller to see that animals are fed and cared for free of charge to purchaser, until loaded for shipment. Insurance will be available sale day by a bonded livestock insurance broker if you should so desire. It is recommended that insurance be obtained for bulls purchased.

HEALTH

All bulls are fertility tested and examined for total functional soundness by Rick Maage and Betsy Bialon of Sugar Factory Vet Hardin, Montana.

All bulls sell guaranteed to be eligible for shipment to any state in the Continental U.S.

At Pine Coulee Angus, herd health concepts are always being evaluated and modified as new products, situations and needs arise. The whole Pine Coulee Angus herd is routinely immunized against the following infectious diseases: BVD. IBR, PI3, BRSV viral diseases, Clostridial infection (8-way), H. somnus, Vibriosis and Leptospirosis as well as the use of the newest broad spectrum dewormers on a rotation program. Breeding age females on the ranch are official calfhood vaccinated for Brucellosis. The goal of the program is to prevent unnecessary health problems in our herd and ultimately yours.

Virgin yearling and two year old bulls have not been exposed to any females.
