

For Special Pricing discounts based on Sales Group Percentage Discount

You need to go into Setup_Special Pricing_What Grid and put a tick in Sales Group to make it available first

Rule Type = Sell Relative

What Type - Sales Group

We have added a base sell of NZ Trade to test the SP rule for customer ASHENG (their Price Code is NZTRADE) - you may want to change this selection or leave it blank for all

In the Setup_Rule List Designer Selections Tab
 Select Sales Group
 Make it a priority 1 to ensure it is the highest Priority
 Give it a Reference

Go to Maintain_Special Pricing. Open the special price rule you have created and add the Percentage of the discount

Invoice raised shows 20% Discount
