

# SPIRIT OF SUTTERBY

## Earthworm Workshop Cake

Tuesday 19<sup>th</sup> July 2016. 1800 – 2100Hrs. Sutterby Shoot Lodge.

On the “Hottest Day of the year so far” the Firsby Artisan Bakery decided to make a chocolate earthworm cake to accompany a talk given by Jackie Adams. It managed to keep its shape in the heat until the tea break, where upon it was quickly

eaten by the hungry audience. It was unique as it was the only Sutterby earthworm found during the whole workshop because the ground was too dry!!!! We will try again if it rains??????????

Jackie Adams, Community Scientist, OPAL project, University of Nottingham.
