

School Council Meeting 9th July 2018

Tutor Reps in Attendance

Gareth Sanders

- 1. The council discussed the importance of making sure that all students were aware of the historical significance of the football taking place and even for those not that interested in football, the need to at least watch some of the events unfold, so as not to regret it in the future.**
- 2. The school council welcomed the move from 42 back to 41 as the bench mark for gaining tuck the next day and therefore gaining an above average score. It is considered that setting too higher target can actually act as a deterrent to trying hard, if the target seems unachievable.**
- 3. The selection of students for school trips off site and residential trips was also discussed and the school council would like to know how the school decides on who does and doesn't get to go. The council believes that there should be greater transparency.**
- 4. A further discussion took place on the selection of sports on offer during games sessions on the school field during the summer term. Some reps thought that there should be greater variation and maybe more concentration on athletics.**
- 5. The school council also discussed the temperatures in some of the classrooms during the heatwave and would like to know what the maximum temperature is to be allowed in school ? Or if there is a legal cut-off point ?**
- 6. A final discussion took place on next year's tutor group allocation and reps said that many of their fellow students were desperate to find out before the summer holidays who their tutor was going to be.**
- 7. The school council rep for the boarding house was not present due to being on a residential boarding house trip to Brean Sands.**

AOB

A warm welcome to the new year 6 reps.
