

## Residential Report

Group sessions for the pupils carried out on pornography, “what is allowed by the law”. This was followed up by discussion and a true or false questionnaire to see if the information had been digested and understood.

A discussion with the pupils on general data protection and regulation, along with a short quiz again to confirm the information.

A transition plan for new boarders has been put together and is up and running.

The revised reward system is up and running well. The pupils are able to budget by saving their tokens and exchange them when they have reached the required number for a set reward.

Living skills sessions are working well twice a week and all documented as evidence.

Vocational- related qualification awards are up and running for staff across the school. This is a free access for staff as we are carrying out the assessments ourselves.

AC (member of boarding staff) has completed his Team- Teach tutor qualification.

We are working with Totton college to have plaques put on each pupils bedroom door.

A good half term for the house with an excellent Brean Sands camping trip from the 2<sup>nd</sup>- 6<sup>th</sup> July. On the whole the weather was kind, along with some very good activities. The school was complimented again on the good behaviour and helpfulness of our pupils.
