CURRENT OPPORTUNITY

Title: **Software Engineer** (**Mobile Applications Developer)**
Department: **Product Development**
Employment Type: **Full-time**

Join a dynamic team, focussed on helping Municipal Governments build great communities.

We are a technology and service company, that is driven to help build a better Municipality. Our software offering is led by our flagship product, MuniSight ES, which provides integrated viewing and control capabilities to a Municipality, while our services help our clients manage their data.

We are a small team that is well positioned for growth in a niche market, and we are looking for A-player team members who can help take us to the next level.

About MuniSight.

Founded in 2002 as a business unit of Accurate Assessment Group (AAG), MuniSight has been building great software to help government institutions manage their jurisdictions for over 15 years. In 2017, MuniSight was carved out of AAG to form a stand-alone Company, and is now on the path to building a leading software business in the Greater Edmonton Area. Our offices are in Sherwood Park, AB.

Position Overview.

- Develop our native mobile application.
- Fix bugs in new and existing code.
- Optimize applications for maximum speed and scalability.

Position Requirements.

- Experience with our technology stack (C#, ASP.NET, PostGres, Geoserver, etc.), and mapping applications.
- Have published one or more apps in either Apple App Store or Google Play, or have been part of a larger mobile team that has published multiple apps.
- Experience developing and deploying mobile applications using Objective C and Java for iOS or Android.
- Familiarity with agile development methods.
- Strong understanding of software architecture design patterns.
- Strong ability to collaborate in a design team.
- Strong ability to set goals, and achieve those goals.
- A University Degree.

Why should you apply?

We think MuniSight is a great place to work. We have a great team, with very low turnover, which is a product of our great culture. We provide competitive compensation, and we are only interested in hiring team members for the long term. With MuniSight, you have the opportunity to get involved with a venture-backed software company in Alberta that is driven by the goal of building better Government Institutions.
