

Member Services & Value

Report 9/4/19

Becky Minnick

I recently created an account with Band and invited the board members to join. This is a communication portal that is free of charge. It allows us to send messages, post on the wall, create events, and create polls. You can have as many Bands as you want. Right now I just have the one for the Board, we can also create one for each committee, and if it works the way we want it we can create one for the general membership. You can access Band on your desktop or download the app on your phone or other device. I believe it will do everything we are looking for.

Other than that Little Max is now 2 months old! He is a very happy baby and keeps his Daddy and I on our toes!

Looking forward to seeing everyone at Convention!
