

**Students Plan Nationwide March On The NRA  
Demanding the NRA to Act on Common Sense Gun Reform**

The National Organization For Change, with leadership from March For Our Lives, and with support from Team Enough, Youth Over Guns, [WeCan.Vote](#), Women's March and Youth Empowerment, we are shutting down the street in front of the NRA Headquarters in **FairFax, VA** for the first time in history on **Saturday, August 4, 2018**. The March On NRA is an event to highlight the battle Americans' face as they seek to live in a world without the fear of gun violence.

Founded by a diverse group of students from across the country, we demand that our elected officials take a pause from their thoughts and prayers that have lasted over a decade. We demand that the House Appropriations Committee approves funding for the CDC to research gun violence, we demand they finally take action to turn research-based bills into laws and finally stand up for our lives.

NRA spokeswoman Dana Loesch has [said](#), "states [need] to fully submit all convictions to the National Crime Information Center...right now 38 states submit less than 80% of records...[the NRA has] been calling for [that] for over 25 years." Instead of [watering down red flag bills](#) the NRA must push for expeditious passage of [S.2135](#), the "Fix NICS Act" which would ensure convictions are reported.

We march to demand our politicians make decisive changes so that not one more community has to deal with a senseless act of gun violence. Join Marjory Stoneman Douglas survivors, influencers and many everyday Americans whose lives have been impacted by gun violence in **Fairfax on Saturday, August 4th**.

11250 Waples Mill Rd, Fairfax, VA 22030
