

# Reframe Workshop

---

Are you ready for a hands-on, engaging workshop where you can both experience the realities of poverty and to lay the foundation for being more effective with your poverty alleviation efforts?

*Do not conform to the pattern of this world, but be transformed by the renewing of your mind. Then you will be able to test and approve what God's will is—his good, pleasing and perfect will.*

*Romans 12:2 New International Version (NIV)*

This intensive 1.5 day workshop accelerates the process of aligning the efforts and ministries of the church with the spirit and intent of the church. Through exploring the experiences of people in poverty, examining your internal hopes and goals related to community building, and engaging congregants you will lay the foundation for effective, ongoing, relational ministries intended to develop people rather than merely provide relief for crisis needs.

## Reframe Workshops helps your church:

- Identify and embrace new practices for more effective poverty alleviation.
- Lay the foundation for a biblical and holistic view of poverty.
- Build a team of informed, engaged leaders ready to mobilize.
- Develop a path for sustained, impactful community ministry.

## How It Works

---

- 1 A core team of church leaders and congregants work with a coach to develop their goals and capabilities around targeted ministries
- 2 Your congregation and community partners participate in a Cost of Poverty Experience.
- 3 The core team develops a path forward through a facilitated planning session.
