

STRENGTH AND VERSATILITY FOR A LIFETIME OF ENJOYMENT

ULTRA

DOCK BY HEWITT

Need a tough dock like the Hewitt Roll-A-Dock but don't have the beachfront to roll it in for seasonal storage? Check out the new Ultra Dock from Hewitt.

Like the Roll-A-Dock, the Ultra Dock frame is made from tube construction for the ultimate structural support and superior clean lines. It can also be quickly disassembled and tucked away for the winter without taking up a large amount of space.

Ultra Dock's modular design makes adding on or changing the configuration easy. Choose from three sizes: 4' x 8', 4' x 12' and 4' x 16'.

Adjustable screw legs available in sizes ranging from small 24" to 34", medium 36" to 50" and large 54" to 87".

4' x 8' sundecks available to make platforms and large sun deck.

Decking options include white aluminum and white, beige, or gray ThruFlow.

ALUMINUM

THRUFLOW

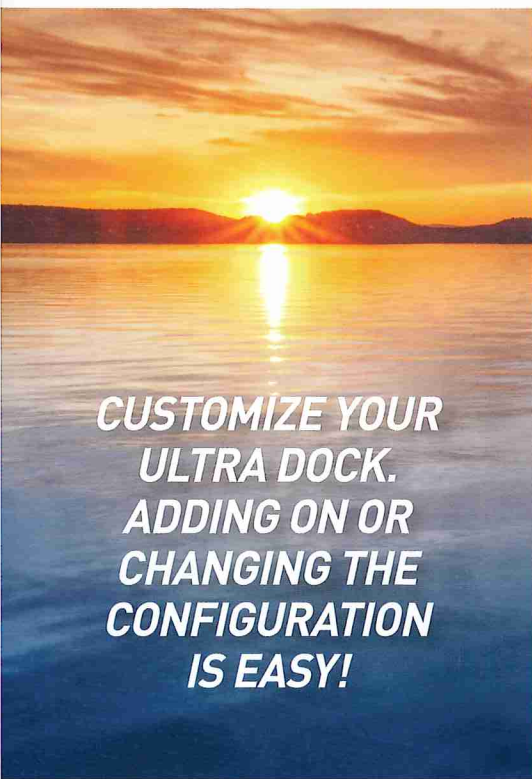

UNI DOCK CLAMP

Sections can be connected end-for-end or side-by-side. Wide range of layout options. All sections connect using the Uni dock clamp.
