

SHORT-TERM OR

Long-Term Saving

Remember!

Some goals take longer to save for than others. Using a goal tracker can keep you excited about saving because you can see the numbers growing each time you put money in your **SAVE** jar.

In this activity, draw a picture of the item you are saving for in the box and write down how much the item costs. Then, color in the lines on the goal tracker each time you **SAVE** money. It may take a while to reach your goal, so don't give up.

Draw a picture of the item you are saving your money to buy.

I AM SAVING FOR A _____

HOW MUCH DOES IT COST? \$ _____
