

SAVINGS, GIVING

and Spending

Make SAVING Fun!

One of the best ways to make a habit stick is to make it visual. Help your **Cool Kids** see where their money is going by cutting out the labels below and placing them onto jars or coffee cans. When they receive money from gifts or chores, make sure they place some into each jar so they learn the importance of savings and generosity. As they save their money, they can watch the cans fill until they have enough saved to reach their goals.
