

Airline cost methodology for analyzing biofuel usage feasibility

COIAE - 1^{er} Premio Innovación Aeronáutica

Authors:

Antonio López-Lázaro

Darío Pérez-Campuzano

Arturo Benito

Gustavo Alonso

LLM Aviation: Principles

Sustainability

Promoting renewable development through our analyses and studies.

Avant-garde

Always in the forefront and innovating in every detail.

Global

Connecting benefits from all around the world.

Research

Searching for the excellence via investigation and development.

Talent

Supporting enthusiastic students from the best universities.

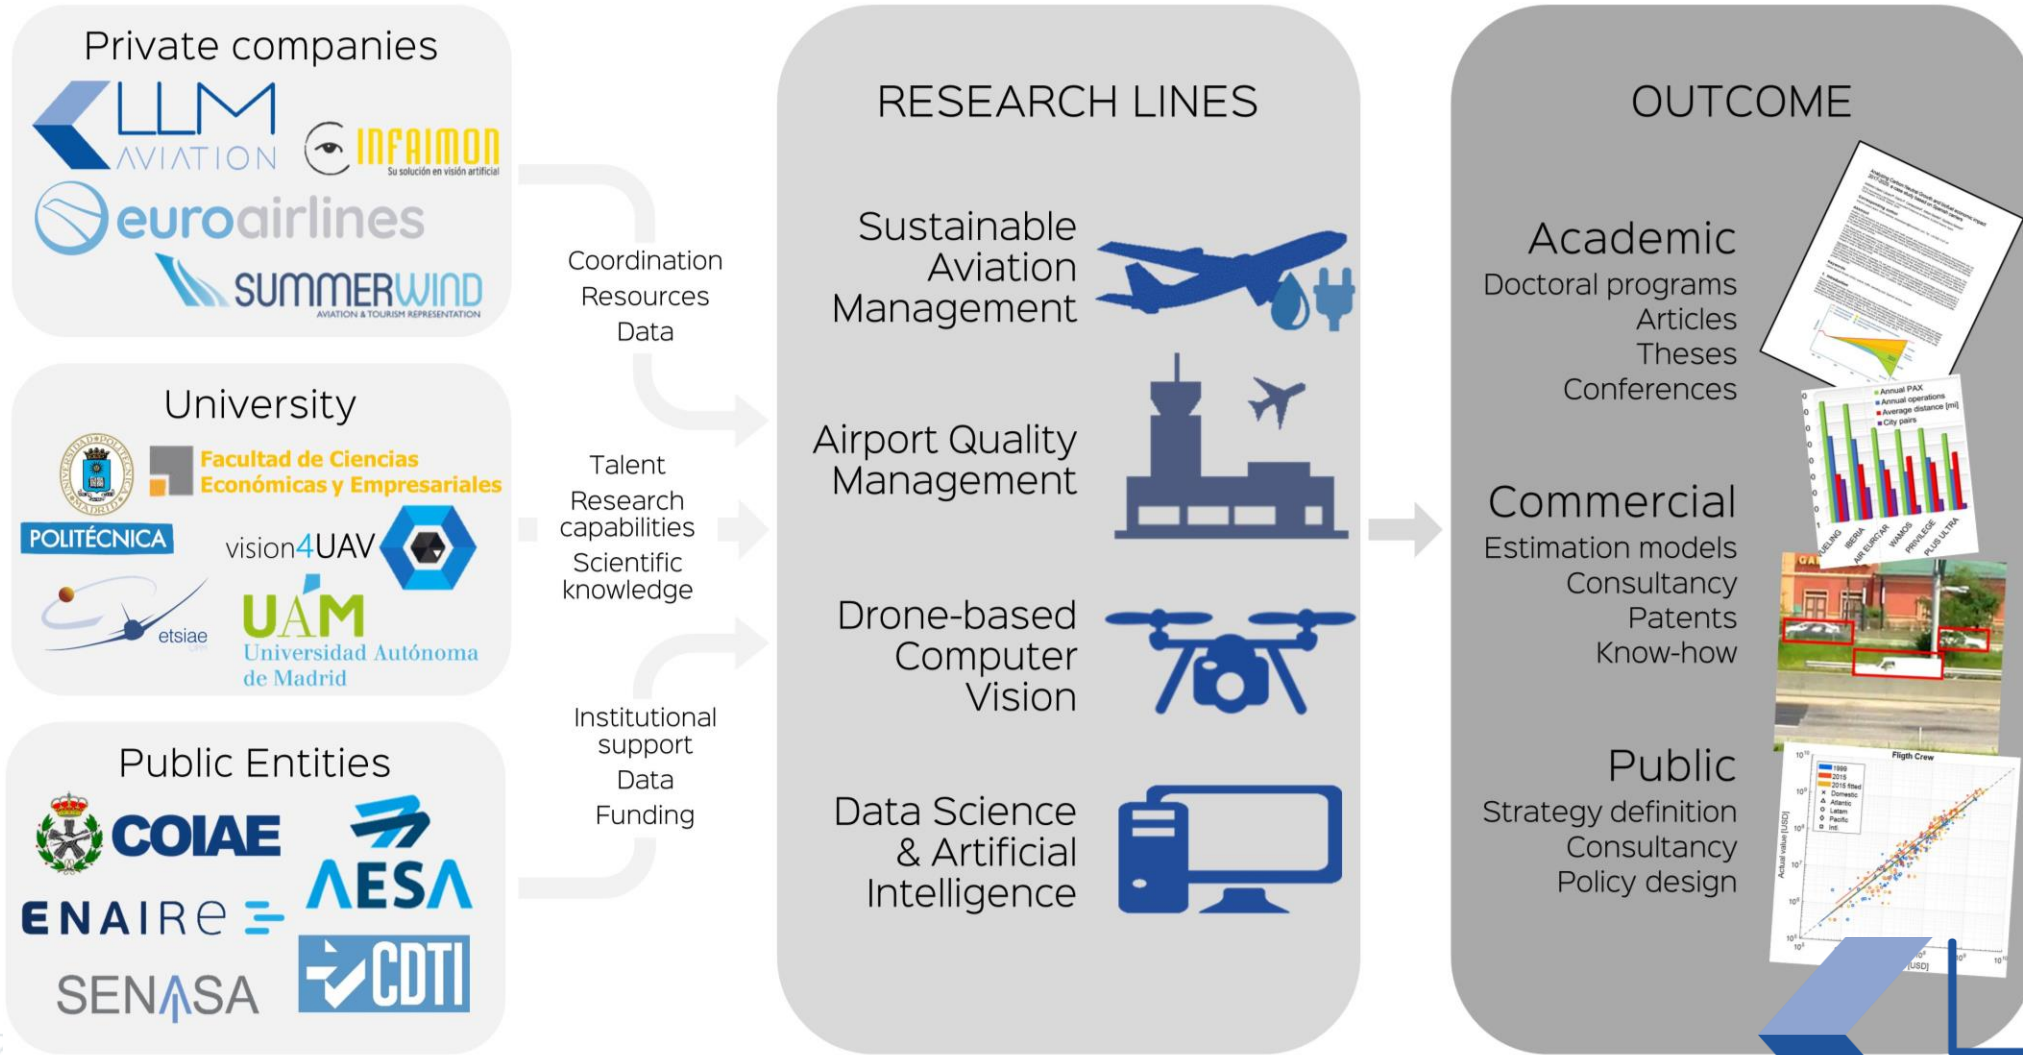

Expertise

High-skilled people with sound background in each matter.
