

2017: Tech /fɔːkəːst/

HAMMERKOPF

**R.I.P
Consumer Wearables.
Enter
Enterprise Wearables.**

A woman with long brown hair, wearing a blue and white plaid shirt, is smiling while wearing a black VR headset. The headset has "Development Kit" written on it. The background is a blurred indoor setting with teal and white geometric shapes.

Augmented Reality and
Virtual Reality will see
cost efficiencies.

Enterprise Drones will
take off in 2017.

Machine Learning will
evolve into myriad real
world applications.

Greater adoption of Precision Agriculture.

Mobile Apps are dead. Embrace Intelligent Bots.

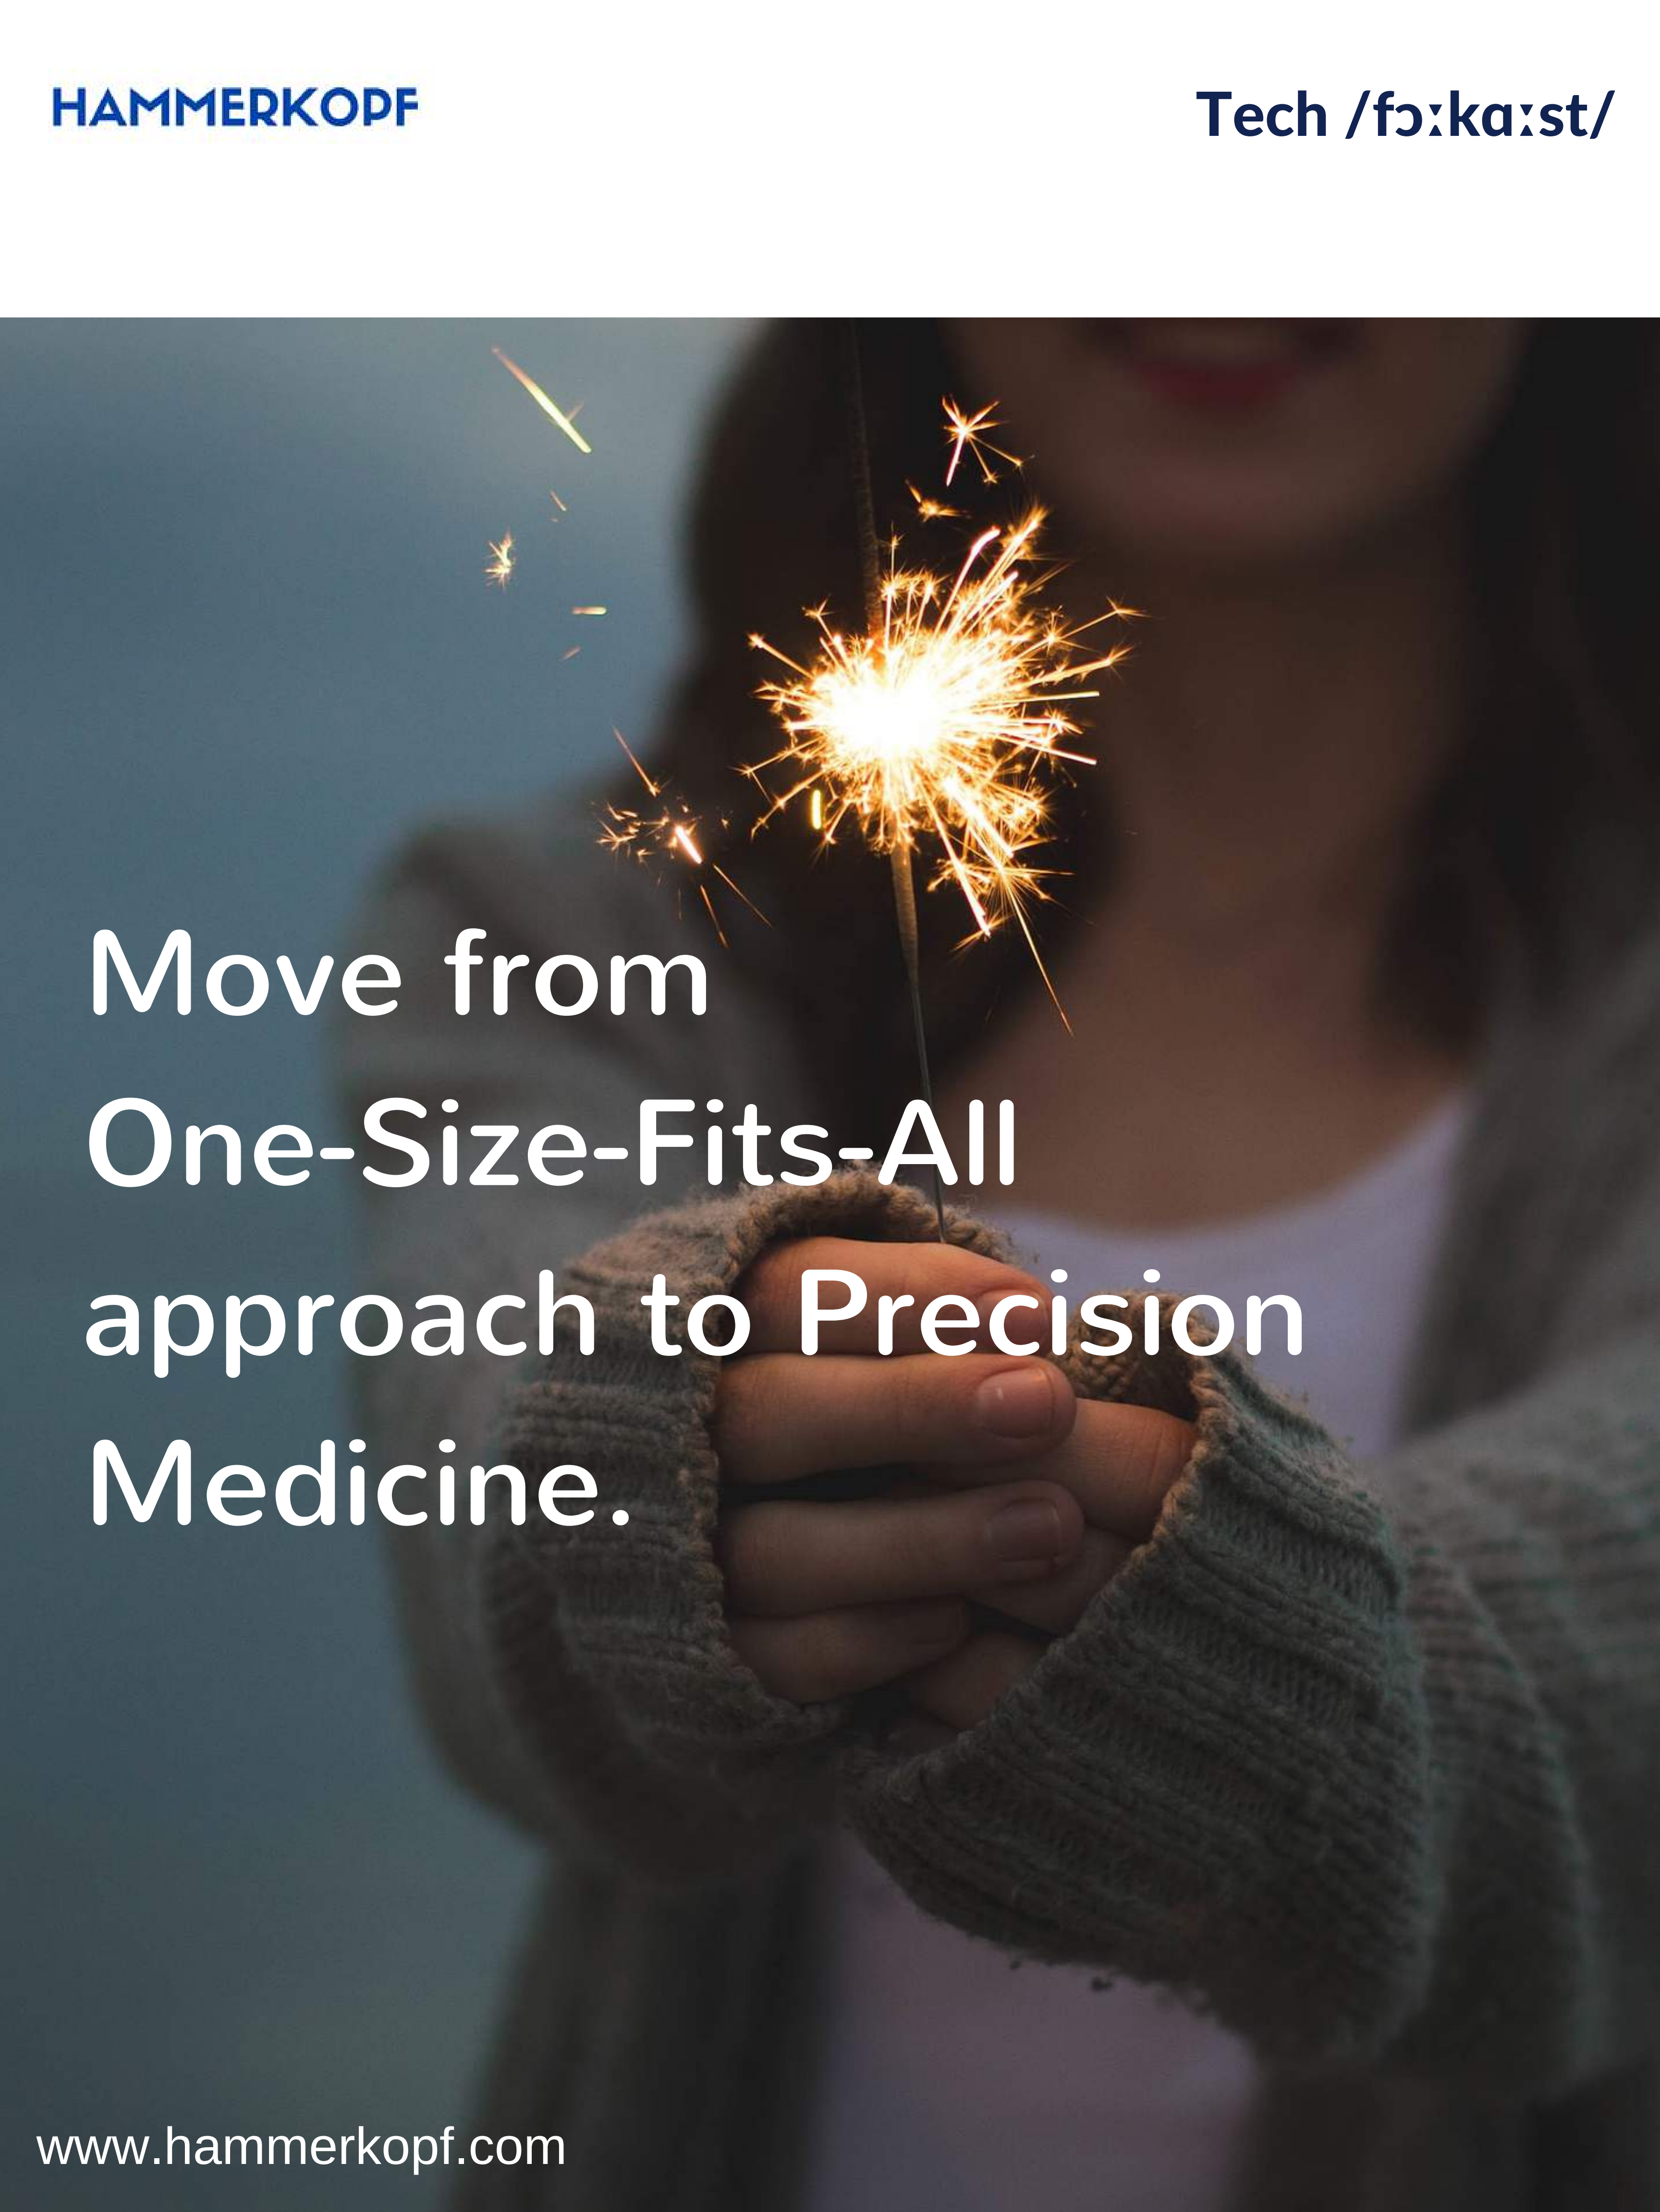

News will
increasingly pivot to a
mobile-only era.

Banking will be digitally
reimagined.

A high-angle, close-up photograph of a workspace. On the left, a portion of a silver laptop is visible, showing the keyboard with keys like 'delete', 'enter', 'return', 'shift', 'alt', and 'option'. Below the laptop, a white notebook with a fine grid pattern is open. A black pen with 'PILOT' and 'PRECISE V5' written on it lies diagonally across the bottom right of the notebook. The entire scene is set against a dark, textured background.

Increased uptake of
online learning, with
immersive experiences.

A close-up photograph of a person's hand holding a lit sparkler. The sparkler is bright and glowing, with many sparks flying out. The person is wearing a grey, textured sweater. The background is dark and out of focus, showing the blurred face of another person.

Move from
One-Size-Fits-All
approach to Precision
Medicine.

Lets Connect.

Based out of India, the world's most exciting and fastest growing innovation hub, Hammerkopf is a enabler of new ideas and enterprises working in emerging tech areas.

We help clients build, leverage, and augment their enterprise value through patent sales, patent acquisitions, and through new market development.
