Squash & Racketball Bubbles

The latest England Squash guidance now allows everyone to play full court squash/ racketball – with some additional hygiene measures – in ‘bubbles’ of up to six people. **You can only belong to one ‘bubble’ at once**, though you may switch between bubbles subject to taking a seven day break between them.

We are required by England Squash’s guidance to record which bubbles are in place, and to also obtain written confirmation that you have read and agree to comply with England Squash’s guidance, including the hygiene protocols. Please familiarise yourself with this, here:
