

Death by Opioid Overdose May Be Preventable!

Painkillers such as Oxycontin or Percocet, and street drugs like heroin are known as OPIOIDS.

FREE Naloxone Training

Individual trainings on site by appointment.

Trainings at your site for groups of 10 or more.

Please Call 410-479-3800 ext. 1021 or email Linda.Quayle@maryland.gov to register.

Naloxone is a medication that can rapidly reverse an opioid overdose.

If someone you know is abusing prescription painkillers, heroin or other opioids, sign up for free training on how to safely use this life-saving medicine. Treatment Works-Call 410-479-1882 for Help
