

JAEGER'S LIST

A report submitted to Heydrich, by the infamous sadist Standartenfuehrer Karl Jaeger, commander of Einsatzgruppe 3 and regional head of the Sicherheitsdienst or Special Security Force.

As we can see from the report, among other facts, the Security Police duties in Lithuania were taken over by Einsatzkommando 3 only on July 2, 1941. Until then, for about 10 days, many thousands Jews were killed in Pogroms and Massacres by Lithuanians only. The Lithuanian murderers, most of them "trainees" of L.A.F. executed this task joyfully and jealously. They continued to do so also when they killed the Jews under the command of the German killers.

I can now say that Einsatzkommando 3 has achieved the objective of solving
the Jewish problem in Lithuania. There are no longer any Jews in Lithuania with
the exception of those Jews and their families under forced labour.

The figures are:

in Schaulen	approx.	4,500
in Wilna	approx.	15,000
in Kauen	approx.	15,000
