NOTES

This cardigan is knitted flat from the bottom up in one piece to the armholes, then split and worked separately. A circular needle is recommended to accommodate the large number of sts for body. It features set in sleeves with a cable pattern that can be worked from the chart or written instructions, whichever you prefer.

SPECIAL INSTRUCTIONS

When completing the sleeve increases, m1 k-wise or p-wise depending on what's needed to continue the 2x2 rib pattern.

Make 1 k-wise: Work to the place where the increase is to be made. Insert the left needle from front to back into the horizontal strand between the two stitches.

Knit the stitch through the back loop.

Make 1 p-wise: On the purl side, insert the needle from front to back and then purl the stitch through the back loop.

As the shaping at the top of the sleeves/armhole shaping in the body of the pattern progresses the cable pattern will be interrupted – keep working in cable patt for as long as possible and work plain ribbing where you cannot complete a cable.

HINTS AND TIPS

You might find it easier to keep track of the cable pattern if you place markers between each 40 st cable rep, as instructed in the pattern. Slip all markers as you come to them.

While designed to be worn with no ease, the 2x2 rib sections give a little bit of stretch, so I'd suggest choosing a smaller size if you're between two.
