2019/2020

Winter

GenerLink No Power, No Problem!

You can lessen the impact of a power outage by taking the time to prepare in advance. Give yourself peace of mind during any storm by ordering a GenerLink.

With GenerLink, using your portable generator during a power outage is EASY and SAFE. It eliminates the hassle of running multiple extension cords, or hiring an electrician to install a transfer switch.

For a list of compatible generators, more information or to ORDER a GenerLink, please contact our office: 780-349-3655.

Please note our office will be closed on the following dates:

December 25-26, 2019 for Christmas

January 1, 2020 for New Years

February 17, 2020 for Family Day

Merry Christmas and Happy New Year to all of our Members!

Are You Prepared?

Winter is upon us and being prepared can make a big difference. During an outage, you can be left without heating, lighting or running water. You should be prepared to take care of yourself and your family for a minimum of 72 hours and have an Emergency Kit. The following items should be contained in any Basic Emergency Kit:

—Water—Manual Can-Opener —Canned Food —Generator—Flashlight
—Batteries —Cash —First Aid Kit —Emergency Plan —Medication

Visit www.getprepared.gc.ca for information on how you can prepare.

Energy Saving Tips

By following the below tips on a daily basis, you can reduce your overall consumption, and save money on your utility bill.

- Avoid heating your home more than necessary. Close vents and doors in unused rooms to prioritize the heated areas.
- Consider turning your thermostat down at night and adding an extra blanket to your bed to further reduce your energy consumption. Putting on a sweater instead of turning up the thermostat can also help reduce your consumption.
- Take advantage of the sun on sunny days by opening window curtains to let in free heat. Ensure you close your curtains when the sun goes down to keep the warmth inside and the chill outside.

2019 Member Feedback Survey
