SHORT-CAKES

DIY VIDEO & PHOTOGRAPHY BACKDROPS

Tools You Will Need:

Hair dryer
A thin board that is not flexible (Home Depot)
Sandpaper (optional)
Cut board (optional) *Home Depot will do this for you if you request it.
Xacto knife
Dry Washcloth

Contact Paper: Click blog link at the bottom to be taken to direct links on my blog post.

Dark Wood Grain
White Semi-gloss
Concrete
Marble

Directions:

Have your boards cut to the desired length and sand them smooth if necessary. Wipe down the board completely with a dry washcloth or towel. Measure and cut your self-adhesive contact paper to the length of your board with a little overhang. Carefully apply your contact paper and then smooth out any air bubbles and wrinkles with the washcloth. Turn hairdryer on highest heat to heat seal your paper and especially the edges. Enjoy!
