**Activity 1: Research**

Engage students in learning about careers using one or several of the following research methods:
- Read appropriate reading-level books provided by teacher about careers
- Independently find and read books about careers during library time or outside of school hours
- Interview a family member or trusted friend with a career of interest by asking at least 3 questions written down beforehand
- Shadow a family member of friend while on the job for a few hours or day
- Search reliable internet sites to learn more about career(s) of interest

Sample websites for a few careers:
- Biologist: https://www.nasa.gov/audience/forstudents/k-4/dictionary/Biologist.html
- Hospital jobs – https://www.knowitall.org/series/kids-work-hospital
- Television Station jobs – https://www.knowitall.org/series/television-station
- Theater jobs – https://www.knowitall.org/series/kids-work-theater

**Activity 2: Write**

Students write an informative/explanatory piece which describes a career he or she hopes to pursue someday. Encourage writers to be creative and include specific details about career. For example, setting or place where work is done, people they might work with, and clothing, tools, or equipment they would use.

Option: Students include a drawing of themselves working in the career described.

**Activity 3: Share**

Give each child a “Hello. My name is” sticker.

Instruct students to write the name of a career he or she might want to do in the blank “name” area.

(Example: “Hello. My name is nurse.”)

Ask students to stand, one at a time, and introduce themselves by their careers names and describe what they do in their job.

Option: Divide class into smaller groups of 4–5 students for sharing.
**Activity 4: Careers Crossword Puzzle**

Copy & distribute puzzle for students to solve with career definitions provided.
