

2019 Energy Psychology Conference CE Type Approval Grid

The following grid will tell you which type of CE has been approved for each presentation.

◆ means the course is approved for the CE type.

- (dash) means the course is not approved for that CE type.

P means we're submitting an application for that board. We'll update when we receive a response.

Dear Conference Attendee,

In the last few years, the rules for continuing education have become substantially more conservative at various boards. ACEP is required to follow the rules of the boards so that we can offer CE. We have continued to provide you with the quality of workshops that we have always provided, but many of these sessions can no longer be given CE, CME, or CNE. We've tried to ensure that there's at least one option for each board in every time slot so you can create your own balance of CE hours and clinical training. We hope you understand and appreciate the balance that we are striving to maintain.
