Crypto is daunting, particularly crypto mining, we get it. Equihash, Ethash, overclocking cards, configuring miners... the list is endless and the jargon seemingly impenetrable.

MANIC MINER take the hassle out of crypto-currency mining by offering a preconfigured system in a beautiful customized NZXT case, ready to go straight out of the box. Tell us what currency you want to mine and we'll preconfigure your MANIC MINER so all you have to do is plug the system in and connect to the internet.

If you want to change currencies, no problem, either use our simple proprietary graphic user interface to change with a couple of clicks or give us a call and we can help you out.

Remote support options available.

Gauranteed buyback up to 18 months at 0.6 * purchase price.

Mining is the best hedged bet you can make in Crypto-currencies and its never been more profitable.
