Viper Red LED Series DDR4 8GB (2 x 4GB) 3000MHz Kit

Patriot Viper LED series memory modules are designed with true performance in mind. Built and tested for the latest platforms, the Viper LED series not only provides the best performance and stability, but also adds some flare for the most demanding gaming PC environments.

The design concept of the LED series' heatshield is to highlight Viper and its line of professional high speed gaming. This high quality aluminum heatshield also offers superior heat dissipation to ensure rock solid performance even when using the most taxing applications.

Our Viper LED series offers the most competitive and aggressive specifications as it is the highest segment of Patriot OC DRAM product lines. The Viper LED series are available in either red or white LED color.
