

Viper White LED Series DDR4 16GB (2 x 8GB) 3200MHz Kit

Patriot Viper LED series memory modules are designed with true performance in mind. Built for the latest Intel Kaby lake processor utilizing the 100/200 series platform, the Viper LED series not only provides the best performance and stability, but also adds some flare for the most demanding gaming PC environments.

The design concept of the Viper LED series' heatshield is to highlight Viper and its line of professional high speed gaming. This high quality aluminum heatshield also offers superior heat dissipation to ensure rock solid performance even when using the most taxing applications.

Viper LED series has the most competitive and aggressive specifications as it is the highest segment of Patriot OC DRAM product lines. The Viper LED series are available in red/white LED color in 8GB/16GB dual kits at speeds from 2400MHz up to 3600MHz.
