

JUNE 5-8

STEM STOMPERS

STEM Stompers:

Does your child love to create and build on their own? Has your child enjoyed getting to know the basics of STEM this year? Then please join us for STEM Stompers Summer Camp June 5-8. You may choose from two different sessions: AM Session: 8:30-11:30, or PM Session: 12:30-3:30. Each day we will focus on a different aspect of the necessary STEM skills your child should have in order to be prepared for today's fast growing STEM careers. Ran by Mount Bethel STEM Teacher Sammy Jo Hogan. Please send any further questions to Samantha.hogan@cobbk12.org.

Monday Session

Real Life Engineering Challenges: ex: Can you design a hammock to withstand wind and weathering, how do amusement park rides work and can I create a smaller successful version, etc.

Tuesday Session

Robotics: Ozobot Mazes, Bee-Bot Board Games, Cubetto Story Tellers, etc.

Wednesday Session

Brain Builders: Zoobs, Lego, Rockenbock, and Little Bit Challenges

Thursday Session

Coding: Learn the basics to writing script and use those tools in order to create a simple app, control a robot, create a video game, or edit a movie.
