 Release date:  
 EAN: 4260101570703  
 Cat.Nr.: EZ17C2279  
 Genre: Elektro-Pop  
 Label: Echozone  
 Distribution:

Following the successful MESH support tour, the pop duo LOEWENHERTZ from Augsburg up the ante and release their third single "Wer sind Wir" (Who Are We) from their latest successful album "Echtzeit" (Real Time).

Since both singles "Irgendwann" (Some Day) and "Unsichtbar" (Invisible) as well as the album "Echtzeit" made top places in the German Alternative Charts (DAC), LOEWENHERTZ intend to continue their musical success seamlessly.

For that reason, LOEWENHERTZ really put their back into the release of the new single which will have all friends of good music clicked their tongues.

Beside of the single version of "Wer sind Wir", the release features a fireworks of high-class remixes. Musicians from all over the world created a total of 16 interpretations for LOEWENHERTZ.

The Spanish Cyborgdrive remix and the DMT Berzerk remix from Mexico would have been worth their very own single release. However, all the other remixes also know to impress with diversity, an abundance of variety and esprit. The versions' portfolio range from EBM to minimal electro and presents everything the (Loewen) heart desires.

In addition, LOEWENHERTZ produced a non-album track exclusively for this release. The excellent up tempo song "Time Maschine" smoothly joins the catchy hits of the album "Echtzeit" and would have earned a regular place on "Echtzeit" for sure.

Back to "Wer sind Wir". With the third single, LOEWENHERTZ demonstrate again their intuition for wonderful electronic music. This track surely is one of the strongest songs from the album "Echtzeit" and, therefore, deserves undoubtedly its own release.

The complex German lyrics, offering an endless scope for interpretation, combined with powerful and in parts heavy beats and sounds, create a real sound experience.

German, modern pop somewhere between Wolfsheim, Glasperlenspiel and Ich + Ich. That is LOEWENHERTZ 2017. Convince yourself and check it out.

This release is complemented by a strong remix and instrumental package featuring Restriction 9, Base Experience, POS.:2, Alex Stroer, DMT Berzerk, Monotronic, Projekt 26, Projekt Ich, Imunar, Hoof, madbello, JanRevolution Stefan Käshammer, DJTHOMMY and Cyborgdrive. The songs of the single will be available via all
