334-2125	2-1/8"	3/4"

Wall reveals are used as a transition between drywall and acoustical ceilings, door frames, and transitions with the floor. Can be factory finished in custom colors.

All trim have a flange which is tapered, grooved, and prepunched for screw attachment to accept a bonding agent.

# FINAL FORMS I

## SERIES 300

For use with metal stud walls and GPDW to form wall reveals.
