

Choose from one of three all-day professional opportunities in one quality event

Announcing the third annual...
Winter AG Academy

Workers - Training to the Worker Protection Standard (Spanish)

Learn about the important changes to the Federal Worker Protection Standard taking affect January 1, 2018. If you have employees working directly with or even around pesticides, this workshop is an excellent opportunity for you to provide them with Accredited and Documented Training. All Hands On Training is given directly by experienced WSDA and L&I trainers and all participants will receive a WSDA Handler Card upon course completion - no testing required. Six WSDA Pesticide recertification credits will be available for licensed participants.

Crew Leaders - Leadership Skills (Spanish)

Provide your team leaders the training to cultivate a healthy workplace and gain respect from workers. The focus of this track is on-boarding beyond orientation through effective communication, feedback and performance measurement. Topics will include how to properly and effectively administer progressive discipline, as well as how to apply coaching and motivational techniques taught through hands on exercises, and much more. Other topics will include recognizing potential harassment or retaliation scenarios, next steps, and review on how to properly direct unwanted visitors that may show up to your field or orchard.

Owner/HR - Labor Law (English)

This workshop offers important labor and regulatory updates specific to seasonal employers. Topics will focus on issues that affect you, such as the future of agricultural wages, increased ICE worksite enforcement, labor unrest, and navigating leave laws to name a few!

Pre-Registration is Required
