

Sound

Sound can be many pleasant things,

Birds chirping in the trees,

Leaves rustling in the wind,

Rushing water in a river,

Wolves howling in the night sky,

A fanfare of trumpets.

But sound can also be awful,

Cars honking on the highway,

Nonstop arguing,

People watching television when you are trying to sleep,

Cymbals continuously crashing,

Sound can be pleasant or awful,

You just need to look in the right places.
