Who We Are 我們是誰

The 2plus4 interior design Ltd was founded in 2014. We are not only focused on design work: the mission is to innovate a concept that we can make use of construction/decoration wastage to contribute to environmental protection and create a better world.

We care about the low-income neighborhood and homeless people, and we are willing to offer an interior economic solution to them. That's why we form an innovation team to see more possibility for how we can change people's mind, not just donate money to environmental protection related organization. We are aware that too much wastage in every construction project, either from enterprise or family. To reduce wastage and share your abandon staff is our mission, where to find more recyclable material and would not damage the environment. We need more people to find those out and share the knowledge.

Our team will help you change this practice by embracing other recyclable and sustainable materials to achieve the same result. Many suppliers were providing Eco-friendly products. We can choose the right one for you. To combine such products with intelligent interior designs that maximize natural lighting, ventilation. Offer a sustainable and Environmentally-friendly lifestyle to you. We offer the following services:
