

MP MOMENTUM™ D, a hot tub and swim spa – the best of both worlds.

The MP Momentum™: Two Bodies of Water, Two Different Temperatures

Get in and say hello to a whole new level of physical and mental fitness. This is where the sweet spot of a swim spa meets the power of a hydrothermal therapy hot tub. Where the benefits of both are joined to satisfy self-discipline and self-indulgence alike. This is the MP Momentum by Master Spas — the best home spa experience of your life.

As the largest domestic swim spa available, the MP Momentum by Master Spas features the full power Wave Propulsion Technology System for a deeper, wider, smoother water current that is adjustable for individual resistance levels. On the other side, a full-size hydrotherapy hot tub with 36 jets and ergonomic seating designed to give your mind, body, and spirit a thorough rejuvenation. Enjoy a swim with water set to a personal comfort zone in the 80's, then settle into the hot tub side with the hydrothermal therapy set up to 104°. Say good-bye to the tensions, aches, and stresses of the day. It's more than a sensation; it's your solution.
