#### Franny K. Stein

by Andy

JIM BENTON's new 8th book in the Franny K. Stein series is coming out on July 23, 2019.

This book is called Bad Hair Day. The Franny K. Stein books are really funny, they make me laugh out loud. Franny is a mad scientist who is a kid and her adventures are great. I like reading books that are a series because you get to know the characters really well.
