THE ART OF LEISURE

The reproduction of colours may differ from reality.
All our designs are registered internationally.

Living the good life outside, that's the essence of Tribù.
Belgian, family-run design house Tribù adds discreet luxury and exclusivity to your terrace or garden. Our outdoor furniture is sold in over fifty countries, both in retail as in the contract sector. Enjoy world-class design: a refined cocktail of elegant modernism, distinctive purity and impeccable quality. Luxurious, but always discreet.

When my father Henri De Cock started his company in 1967, he probably never imagined that fifty years later Tribù would be recognised as a leader and innovator with a strong brand identity.

Today, we are one of the oldest fully family-owned manufacturers of high-end outdoor furniture. Our independence enables us to pursue our own strategy in total freedom, nurturing our passion for beautiful and inspiring furniture.

We design timeless outdoor pieces with care and love - creating places to relax, leave the daily stress behind and indulge in comfort.

I would like to thank all of our partners and collaborators over those 50 years. We wouldn't be where we are today without your commitment.

Lode De Cock
President

DESIGNERS

Piergiorgio Cazzaniga
CTR, VIS À VIS, BIRD

'When Tribù contacted me, I immediately had the feeling they were giving me a lot of freedom to express myself. In all my designs I start from an intense emotion. There was always a lot of enthusiasm and dedication to the development of my ideas at Tribù. I experience them as a company that wants to produce rational objects, but always with a sense of poetry.'

Studio Segers
ARC, KOS, MOOD, NATAL

'The fruitful collaboration with Tribù since more than 20 years, demonstrates our mutual vision on design. To us, design is more than beautiful shapes, more than trendy styling, it is a continuous search for the essence of products. Good products are the result of the right combination of creativity and technical know-how.'

Vincent Van Duysen
NEUTRA

'Tribù's style fits well with what I'm working towards in my architectural projects. No spectacular loud furniture, but a lasting, timeless line with an eye for detail. We share a love of pure forms and flowing lines and dare to go a step further technologically.'

Lievore Altherr Molina
BRANCH

'Working together with Tribù was a very positive experience for us. First of all because of their belief in our designs, secondly because of the way the project was handled with a lot of involvement, preciseness and seriousness, which was very stimulating.'

Monica Armani
TOSCA, NOMAD, PAVILION DAYBED

'Tribù asked me to add a female touch to the collection. There are a lot of things in my work that we have in common, a sense for materials, colours and textures, the attention for the smallest detail and a passion for research and experimenting, keeping precisely in mind how a Tribù product should look like.'

Merckx & Maes
ILLUM

'Our approach is a constant search for the perfect balance between proportions, materials and technology. We always aim for pared down forms with strong lines, in combination with natural materials and attention to detail. We found the same kind of philosophy at Tribù. They have a strong sense for tradition and craftsmanship, without losing the functional aspect.'

TOSCA

MONICA ARMANI

Tosca is the perfect mix of innovation and beauty, a collection as inviting to curl up in as it is intriguing to look at. The giant weave in hi-tech 'knitting', soft to the touch and completely weather-resistant, is complimented by slim legs in powdercoated stainless steel. The soft, tonal contrasts between weave and frame adds to the discreet luxury.

MOOD

STUDIO SEGERS

Combining the natural beauty of high-quality plantation teak with a weave in refined grey or warm earthbrown Tricord, the Mood collection is styled with informal comfort and elegance. The supple, weather-resistant Tricord straps are handwoven around curved aluminium back frames, complementing the glow of precision-cut teak, finished with gently rounded corners.

VIS À VIS

PIERGIORGIO CAZZANIGA

The Vis à Vis collection in plantation teak invites relaxed conversation. The generous loungers connect around an integrated table, face to face or alongside each other. The chic modular sofa is defined by low-profile, slender teak platforms, topped with broad cushions held in place by invisible supports. Slatted sidetables can be attached to the base to extend its elegant lines. Matching chairs are upholstered in a light and airy Canax® weave.

CTR

PIERGIORGIO CAZZANIGA

The CTR collection is characterized by a tube in powdercoated stainless steel that follows its outline in one continuous line. With a lightness of touch the open weave of the backrest appears to float unsuspected around the upholstered seat. The CTR collection is a complex design created with an effortless, relaxed style.

NATAL ALU

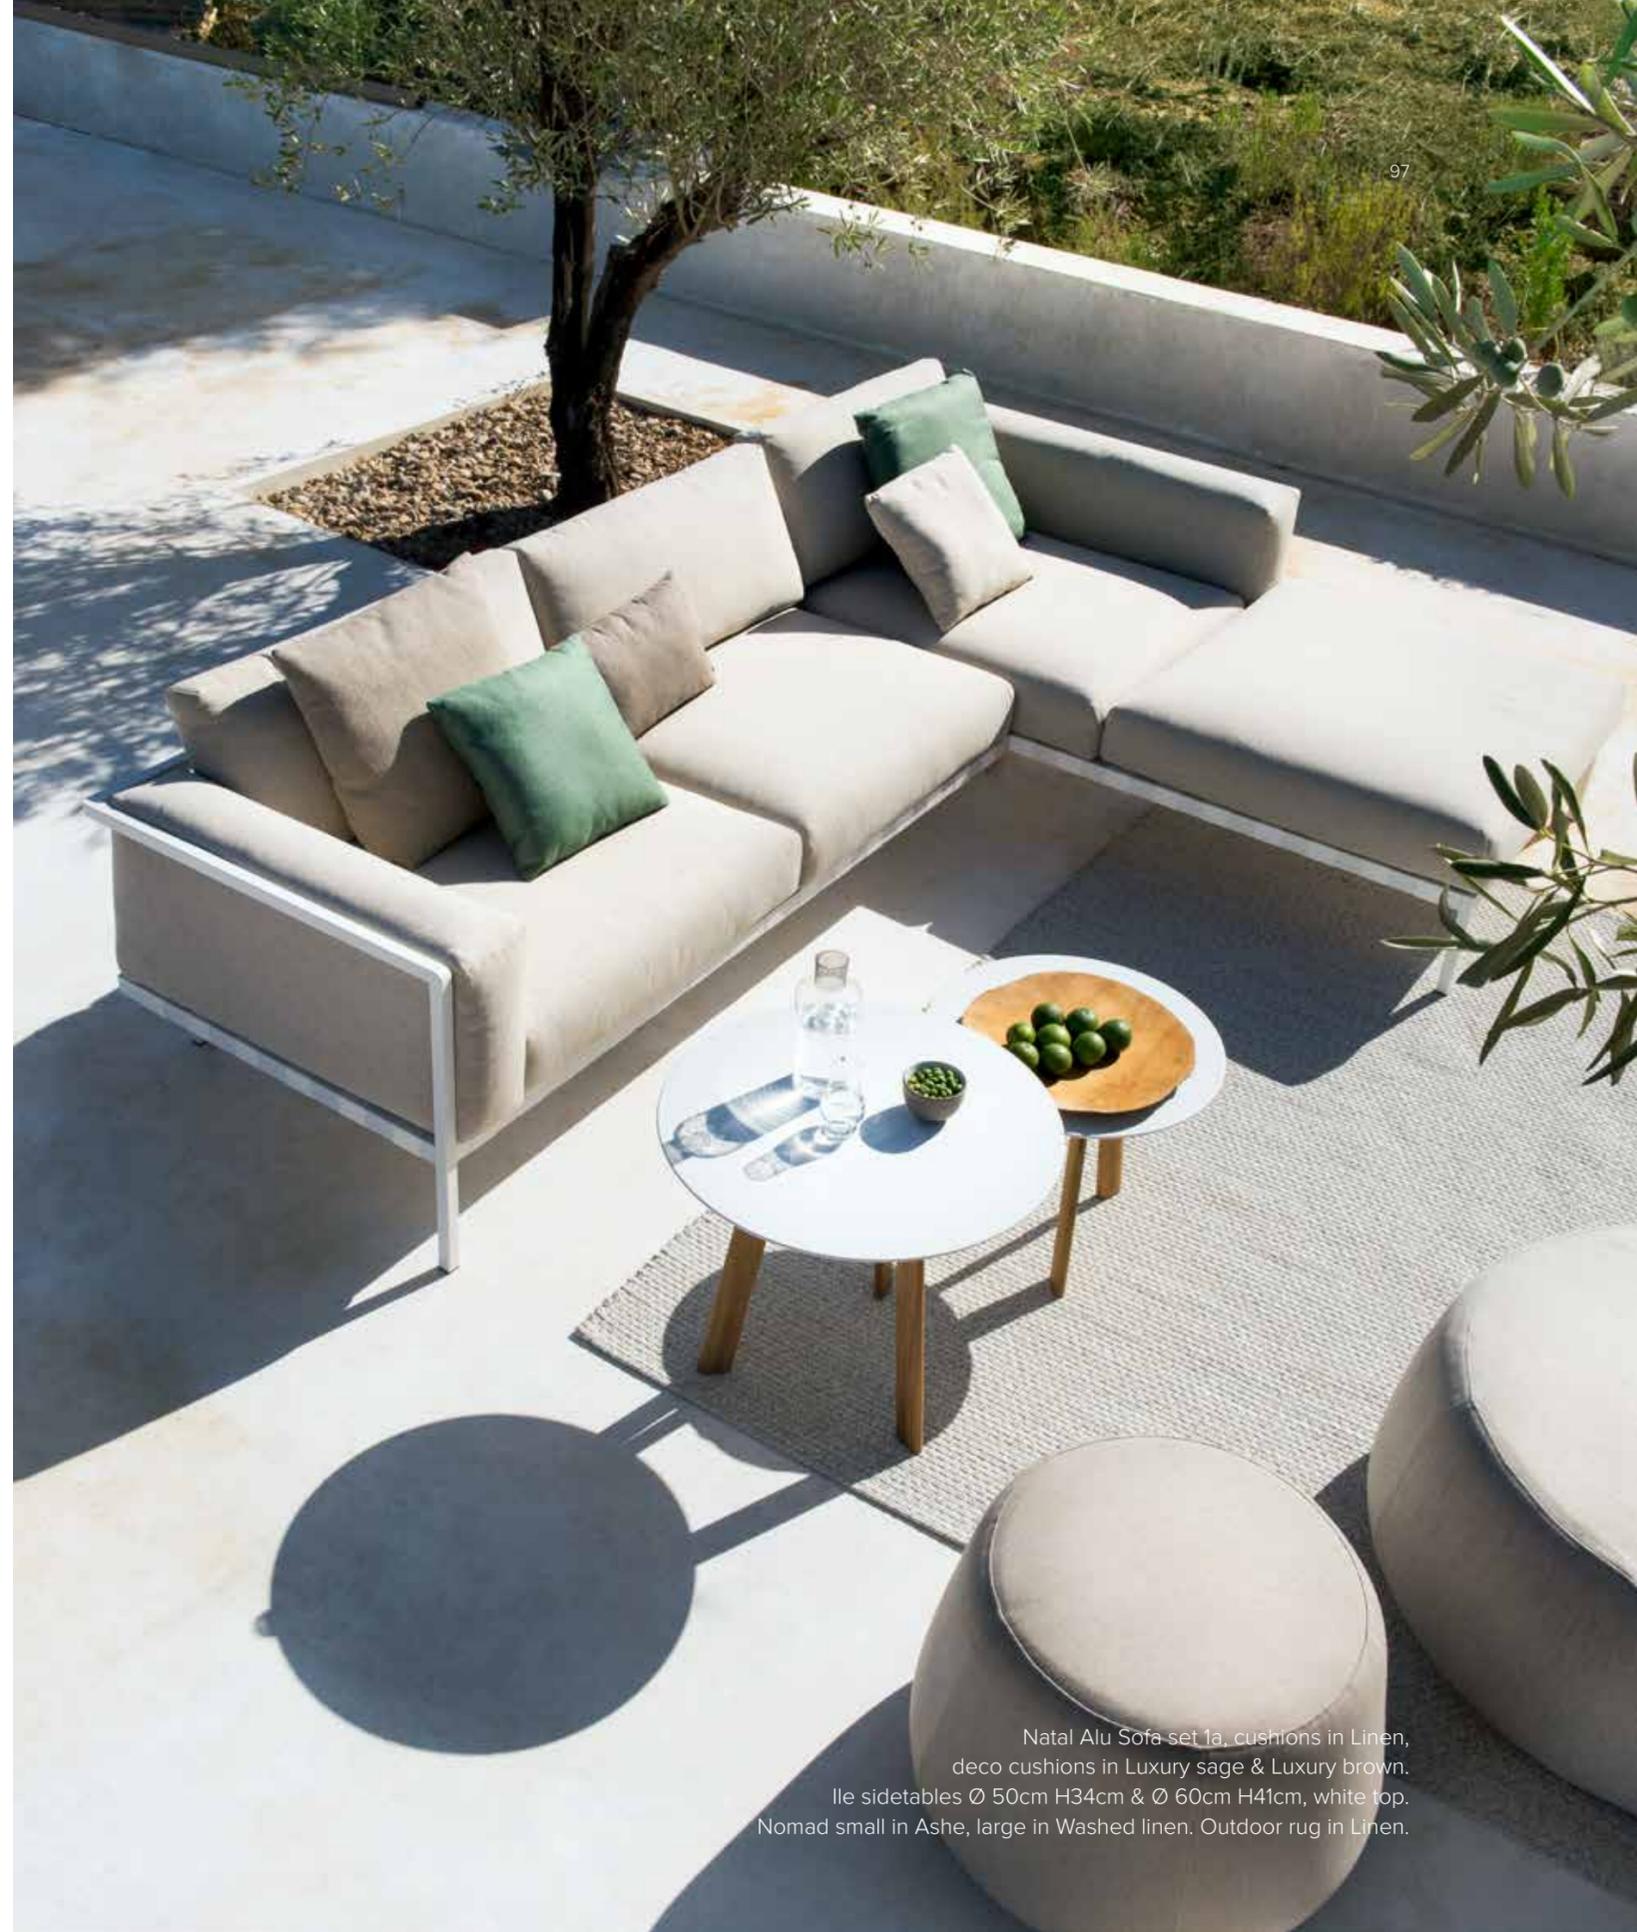

STUDIO SEGERS

The Natal Alu sofa displays Tribù's design and technical skills with a slender, minimal frame and generous, water repellent sofa cushions. Thirteen different modules can be adapted to fit any space with refined elegance. The wide range in fabrics adds to the flexibility of this timeless design sofa. The Natal Alu dining chairs continue the theme with seats that appear to float within a light frame.

KOS / PURE SOFA

WIM SEGERS / ANDREI MUNTEANU

The Kos and Pure Sofa collection share the warmth of smooth Javanese plantation teak and a clean, simple design. The finely balanced proportions of the Pure Sofa are offset by soft, deep sofa cushions, which come in two designs and an array of luxury outdoor fabrics. The five modular elements can be combined as desired to create welcoming seating areas. The gentle curve of the Kos chairs and their deep seats provide an excellent seating comfort.

Kos easy chairs, cushions in Canvas.

Pure sofa coffee table 123x63cm, cloudy earthbrown top.

TERRA

BRAM BOLLEN

As striking as it is innovative, the Terra collection is handwoven from a unique, tactile fibre, Canax®, which mixes hemp fibre with pvc to create a matt, natural texture and look. Canax® is colour-fast, stain- and weather-resistant and the hemp absorbs carbon, helping to reduce air pollution.

Terra casual chairs, cushions in Natté Basalt.

BRANCH

LIEVORE ALTHERR MOLINA

Just as sunlight filters through the branches of a tree, so it illuminates the Branch collection. Slender legs and lattice seats give Branch a lightness and delicacy, while the clever design and hi-tech materials make the collection highly comfortable and durable. "Branch strengthens the emotional connection with nature. It creates a feeling of respect and fascination with the natural environment," says designer Manel Molina.

VINTAGE

BRAM BOLLEN

The Vintage chair is an updated version of the fresh and funky Seventies bucket chair. The seat shell is a style statement in itself, a clean sweep of smooth polypropylene. The material is anti-static, dirt-repellent and frost- and UV-resistant. The chair comes in several bases and shell colours, allowing to make countless different combinations.

NEUTRA

VINCENT VAN DUYSSEN

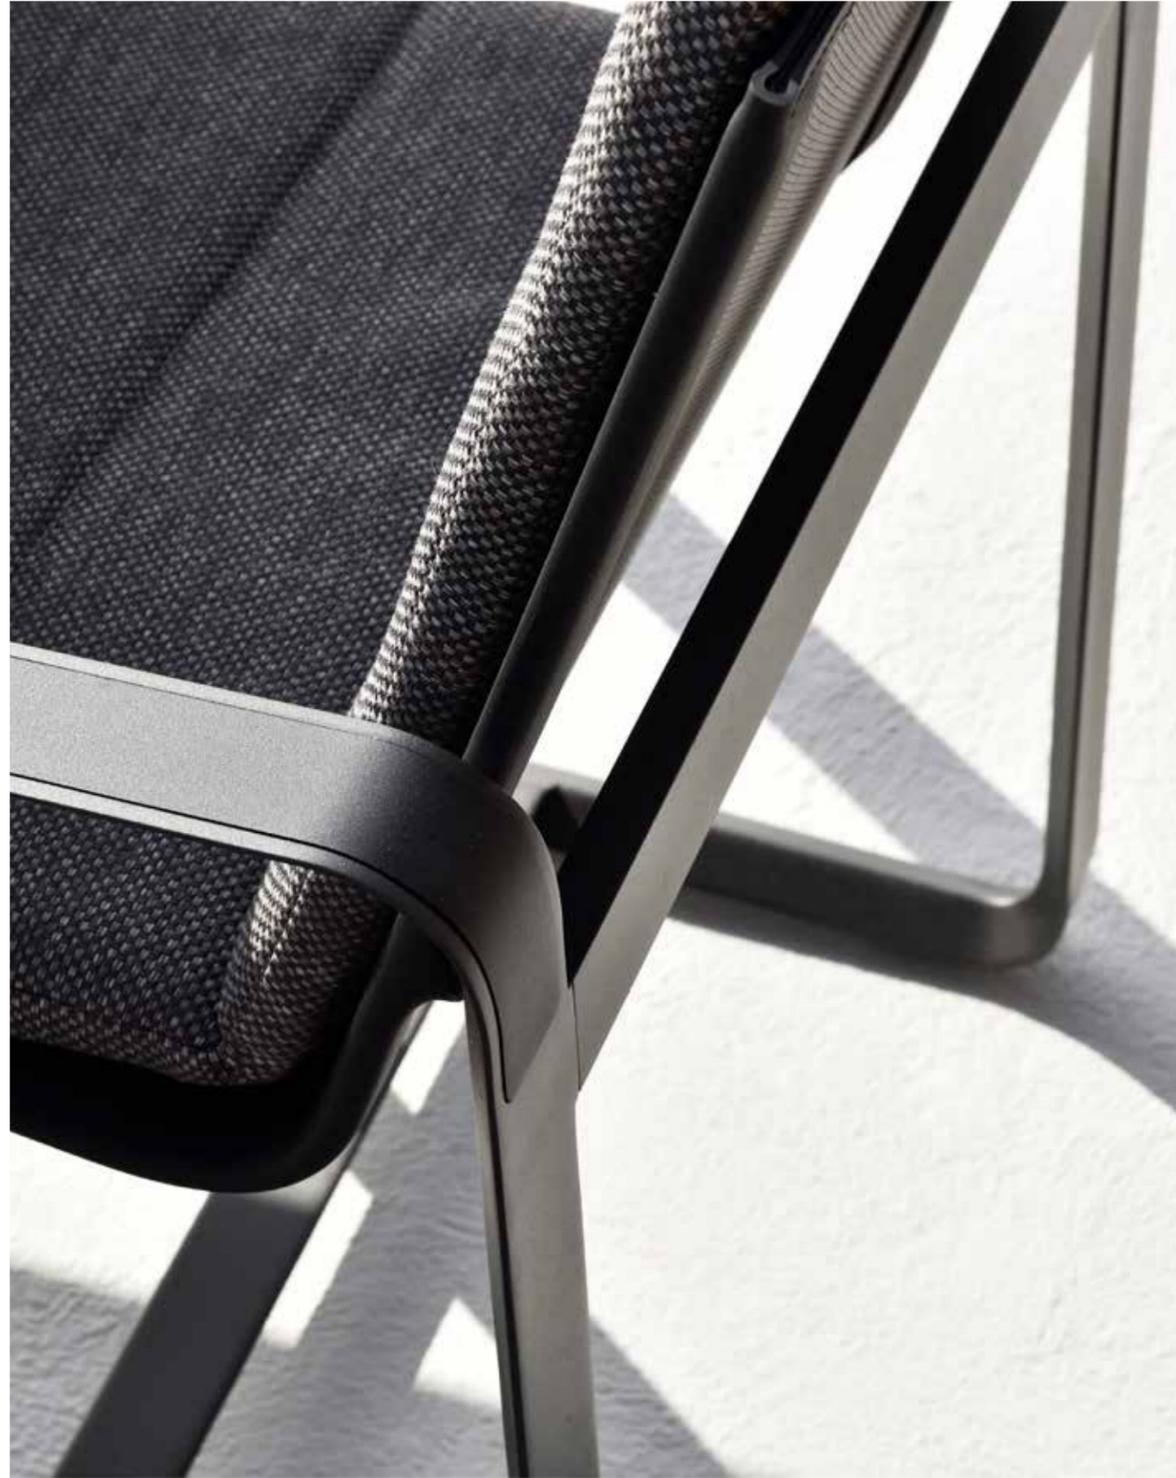

There is a quiet beauty in the modern chic Neutra collection, an attention to detail that becomes apparent beyond the first impression of the simply defined contours of each piece. Seamless triangular frames give the illusion of ultra-thin metal supports, while in a touch of sober elegance, the Batyline seats are discreetly edged with weather-proof faux leather.

ILLUM

MERCKX & MAES

The Illum collection refines and reworks the essence of Scandinavian furniture design. Belgian design duo Merckx & Maes has created a line of finely proportioned pieces based on the pure and graceful curves of traditional wooden furniture. The collection is in fact made of durable coated aluminium, allowing the designers to create a slender silhouette with a solid, weather-resistant metal.

MIRTHE

FABIAAN VAN SEVEREN

With minimalism the genius is in the detail. The clean lines of the Mirthe Collection appear to flow into each other seamlessly. Table legs fold perfectly around the table top and chair backs are an elegant curve sweeping down into the legs. Nothing is hidden in Mirthe's vision.

CHAIRS

TECHNICAL SPECIFICATIONS

DINING

ARC (p. 204)

design by Wim Segers

Reduced to the essence, the Arc chair is unpretentious and flexible. Its light, but solid design guarantees a pleasant seating comfort. The round tube profile in powdercoated stainless steel is covered with Batyline from Ferrari which is renowned for its exceptional tear strength, dimensional stability and UV-resistance.

Productcode 03011
W 20" D 21,7" H 33,5" SH 18,5"

00-white 10-linen 89-wengé

BRANCH (p. 147, 151, 154, 157)

design by Lievore Altherr Molina

A slender and light frame in aluminium with nevertheless a very solid stability thanks to the technique of high pressure injection. A double layer of ultra durable powdercoating ensures maximal scratch resistance. Excellent seating comfort thanks to anatomic resilience of the back. The back and seat are made of reinforced, mass dyed polypropylene with an excellent UV resistance.

CTR (p. 79, 81, 83, 85)

design by Piergiorgio Cazzaniga

CTR is characterised by a tube in powdercoated stainless steel that follows the outline of the chair in one continuous line. The woven backrest is attached at only 2 points to the frame, resulting in a flexible backrest that ensures an outstanding back support. The yarn in polyolefin resists all weather conditions, but has nevertheless a surprisingly natural look & feel. The seat is upholstered with a water-repellent cushion which can be easily removed.

KOS (p. 119)

design by Wim Segers

The combination of the broad slats and the pure but powerful design of the Kos chair, reinvents teak in a modern way. Thanks to the ergonomically formed back, the chairs provide an excellent seating comfort. Tribù uses only the very best plantation wood from East-Java. Every log is handpicked during the cutting process of the tree.

TOSCA (p. 19, 23)
design by Monica Armani

An elegant seating shell in powdercoated stainless steel is upholstered with an extra-large, vertical weave, developed exclusively by Tribù. A great deal of research resulted in a unique product with a natural and soft appearance, that is nevertheless 100% weatherproof. A combination of textile and Tricord (polyolefin) is knitted over a tube of EPDM foam without any visible joint. The material is fungi resistant, stain repellent and does not fade.

10-linen 89-wengé

VINTAGE (p. 164, 167, 170, 173, 218)
design by Bram Bollen

With 8 leg options and 3 seat colours, Vintage offers plenty of possibilities. High grade virgin polypropylene compound is used for the seat which is made anti-static, anti-fungal, frost resistant and stain repellent by the addition of additives. A very high percentage of UV stabilizing additives guarantees an extremely high colour fastness, even after a long exposure to sunlight.

NEUTRA (p. 183, 185)
design by Vincent Van Duysen

Sober elegance and timeless simplicity with a pronounced sense of detail. The aluminium frame of the chair has a triangular profile that creates the illusion of an extra thin line and is completely weldless, thanks to the technique of high-pressure injection. Dual powdercoating ensures optimal scratch and UV resistance. The seats are made of Batyline® with a seam in weather-resistant, artificial leather.

VIS A VIS (p. 55, 57, 61, 73)
design by Piergiorgio Cazzaniga

A combination of excellent ergonomic seating comfort with a soft, natural look. The teak, coming from plantations in East-Java, has rounded corners to ensure a pleasant touch with your skin. Every log is handpicked during the cutting process of the tree. The frame is upholstered with an airy weave in Canax® straps (polyester coated with a mix of solution dyed PVC and natural hemp) that are UV and mildew resistant.

LOUNGING

CTR (p. 83, 88)
design by Piergiorgio Cazzaniga

CTR is characterised by a tube in powdercoated stainless steel that follows the outline of the chair in one continuous line. The woven backrest is attached at only 2 points to the frame, resulting in a flexible backrest that ensures an outstanding back support. The yarn in polyolefin resists all weather conditions, but has nevertheless a surprisingly natural look & feel. The seat is upholstered with a water-repellent cushion which can be easily removed.

MIRTHE SOFA (p. 207-208)
design by Studio Segers

An outdoor sofa characterised by extra thick, UV-resistant outdoor cushions, kept in place by subtle, varnished aluminium shells. You can arrange your own personal concept simply by using the three basic elements. The dryfoam cushion fillings have an open cell structure, allowing air to circulate freely. Water passes through the filling but dries quickly thanks to the large open pores.

TOSCA (p. 21, 23, 24, 28)
design by Monica Armani

An elegant seating shell in powdercoated stainless steel is upholstered with an extra-large, vertical weaving, developed exclusively by Tribù. A great deal of research resulted in a unique product with a natural and soft appearance, while being nevertheless 100% weatherproof. A combination of textilene and Tricord (polyolefin) is knitted over a tube of EPDM foam without any visible joint. The material is fungi resistant, stain repellent and does not fade.

NATAL ALU SOFA (p.95-99, 107)
design by Wim Segers

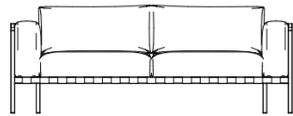

A subtle frame with attractive, curved armrests contrasts beautifully with the volume of the outdoor cushions which are supported by a weave in broad textile straps. Thirteen different modules compose the outdoor sofa of your liking. The aluminium frame of the sofa is powdercoated with ultra durable structure lacquer. The outdoor cushions can be left outside, even in the rain. The ventilating filling is covered in a laminated polypropylene cover which is water resistant. All stitches have an extra inside cover to prevent water from penetrating.

TERRA SOFA (p. 135-136)
design by Tribù Studio

Terra Sofa is made of a unique and revolutionary fibre, Canax® which is strong on the inside (polyester core) and soft on the outside. Thanks to the addition of hemp to the pvc, the yarn has a surprisingly matte look and a natural feel, almost like leather. Canax® is colour-fast, stain-repellent, all-weather resistant and requires hardly any maintenance. Each piece is handwoven. The 6 different modules allow you to create endless combinations.

LOW TABLES

TECHNICAL SPECIFICATIONS

LOUNGING

BRANCH (p. 24, 42, 53, 55, 63, 95, 107, 135) design by Lievore Altherr Molina

An elegant series of coffee tables that, thanks to the variety of colours and materials, can complement different sofa types. The slightly tapered, slimline legs in powdercoated aluminium combine with a circular or rectangular tabletop and are available in different heights. This offers the opportunity to create enriching combinations with different colours and different organic materials such as teak, granite and lightened concrete.

NATAL ALU (p. 112, 136, 228) design by Wim Segers

The Natal Alu tables combine functionality and aesthetics in a contemporary design. Thanks to the numerous possibilities in colours, table tops, heights and dimensions, you will always find the perfect table for your setting. The ultra-durable structure lacquer contributes to an unexpected weather resistance, protects the furniture against scratches and provides a nice matte finish. As for the top you can choose from plantation teak from East-Java or ceramic, a preferred outdoor material thanks to its scratch-, stain-, frost- and UV resistance.

PARTY

MOOD (p. 37)

design by Studio Segers

A cosy design in warm, natural materials. The innovative Tricord® yarn used for the back of the bar stool has been designed exclusively for Tribù. The polyester core provides strength and stability, while the combination of nautical fibres (polyolefin) creates a surprisingly soft look and touch, ensuring nevertheless resistance to all outside influences : frost, water, fungi and UV-rays. The backs can be replaced separately. The beautifully finished round edges of the party table gives it a friendly and soft look. The teak is of the best quality you can find. Only A-grade wood, grown in sustainably managed plantations in East-Java is used.

MIRTHE (p. 211)

design by Wim Segers

Minimalism with a playful twist. The legs of the Mirthe party table and bar stool are welded seamlessly in the length in an angle of 90° and are integrated in the top in a curved line to create a soft, friendly look. The frame, made out of one aluminium plate with a 6 mm thickness, is powdercoated with ultra-durable structure lacquer for optimal weather and scratch resistance, and a nice matte look. The table also fits over a dining table to serve as a buffet table.

LOUNGERS

TECHNICAL SPECIFICATIONS

RELAXING

FORUM (p. 228, 243)
design by Tribù Studio

The Forum lounge is light, yet made of a very steady aluminium construction, and provides an excellent seating comfort. The frame in aluminium is powdercoated with ultra-durable structure lacquer for a nice matte look. The seat is made of Batyline which is reputed for its durability, UV resistance and lasting high tension.

Productcode 06040
W 26,7" D 76,7" H 12,6"
B 68cm D 195cm H 32cm
Adjustable into 6 positions

00-white 10-linen 89-wengé

ILLUM (p. 191)
design by Merckx & Maes

The Illum lounge not only inclines, but also lowers itself to offer an unmatched comfort, while all the mechanics involved – a newly developed pump system - are astutely hidden away. The frame is made of aluminium, powdercoated with a double layer of ultra-durable structure lacquer for a nice matte look. A seat in Batyline guarantees a lasting high tension and an excellent resistance to UV rays, dirt and fungi.

Productcode 06540

KOS (p. 121)
design by Wim Segers

The combination of the broad slats and the pure, but powerful design of the Kos lounge reinvents teak in a modern, robust way. Tribù uses only the very best plantation wood from East-Java. Every log is handpicked during the cutting process of the tree. The lounge is adjustable into positions 5 positions and has wheels with non-marking rubber.

Productcode 04040
W 25,6" D 77,1" H 9,8"

Adjustable into 5 positions

PURE LIGHT (p. 125)
design by Tribù Studio

The extra broad Pure Light lounge combines the natural look of teak with easy-maintenance Batyline, which makes it an ideal furniture in surroundings of swimmingpools, beaches, spa's etc. The border in teak from plantations in East-Java serves as an extra side table. Thanks to the open weave, the Batyline dries rapidly. It has an excellent resistance to UV rays, a lasting high tension and is dirt- and fungi repellent.

VIS A VIS (p. 71)
design by Piergiorgio Cazzaniga

When Cazzaniga started to design the Vis à Vis lounge, he thought of a place where people could be outside and communicate with each other in total comfort. Result was a sunbed with royal dimensions and a handy integrated tabletop that is designed in a way that two loungers fit into each other. Thanks to the flexible bed base, you can lie either next to each other or opposite each other. The teak from plantations in East-Java, has rounded corners to ensure a pleasant touch with your skin. Every log is handpicked during the cutting process.
