GOD INTERVENES AS WE BLIND THE EYE OF DORIAN

Last Friday I was waiting to go for my much needed cardiology check up. To say the least I was Stressed due to the fact by long fabulous cardiologists resigned one month ago just before my three month evaluation appointment. My daughter, Lori was scheduled for surgery in Atlanta and I was not able to be with her. Dorian was on her way to my house, according to the news and all weather forecast. I sat in my recliner and felt so helpless and stupid. Here I am, the mighty warrior leading a mission outreach to the mouth of hell with an air conditioner. (Founders Bibles to U CA, Berkeley). Voices were loud, "where is your God." You are making an idiot out of yourself," the voices said. My head in my hands, I just sat and then, it hit me, God's voice was louder; "Prayer changes things." I sat up and demanded the eye of Dorian be blind. "You are blind and will reverse course, In Jesus Name."

I remember hearing Jesse Duplantis saying that blinding the eye of a storm would cause it to lose control of destination if it was not God's Will or plan. The anointing overtook me and I felt divine intervention. That is what a prayer life produces. Friends, Intercessors with Insight on your side keeps you in the eye of divine intervention. When you sow a prayer, you reap a prayer. Praise God for the Holy Spirit that fights our mind battles when Satan accuses when things are going rough.

The doctor's report was miraculous healing had taken place with my heart. Lori had a miraculous healing from surgery. No pain, no other complications. Praise the Lord. Another victory was taking place. I was so excited. I told the doctor's staff to plan Labor Day to enjoy. God heard my prayer And Dorian would not make landfall and Florida would be saved. They all agreed. Praise the Lord.

Believe me, I took nothing for granted. We all watched and prayed for days. On our Saturday prayer and briefing call we continued to believe God for intervention. We spoke to the winds to cease and decreed "peace be still".

So many of you contacted me to see if I was OK. Thank you, for caring. Each time I said, "stay in agreement".... peace be still".

Today is Thursday. The storm is passed. We are still believing for winds to cease over GA., SC and NC.

Reverse course, In Jesus Name. We are praying for victims of Nassau.

As I look back. Dorian was over Nassau when I prayed. It did not cover the Bahamas. It stood still for 36 hours. As bad as it was, it could have been a lot worse.

During the "down" days, I worked on our California mission. The Lord gave me the Scriptures in 2m Kings in last week's Facts. This week, He gave me 1st Kings 20. This morning I was reading 1st King 20. It spoke volumes to me. Benhadad" was the name of a dynasty of kings of Syria.

Sometimes only a war will do - round #1 (1 Kings 20:13-21) 13 And, behold, there came a prophet unto Ahab king of Israel, saying, Thus saith the LORD, Hast thou seen all this great multitude? behold, I will deliver it into thine hand this day; and thou shalt know that I am the LORD.

14 And Ahab said, By whom? And he said, Thus saith the LORD, Even by the young men of the princes of the provinces. Then he said, Who

shall order the battle? And he answered, Thou.

15 Then he numbered the young men of the princes of the provinces, and they were two hundred and thirty two: and after them he numbered all the people, even all the children of Israel, being seven thousand.

16 And they went out at noon. But Benhadad was drinking himself drunk in the pavilions, he and the kings, the thirty and two kings that helped him.

17 And the young men of the princes of the provinces went out first; and Benhadad sent out, and they told him, saying, There are men come out of Samaria.

18 And he said, Whether they be come out for peace, take them alive; or whether they be come out for war, take them alive.

19 So these young men of the princes of the provinces came out of the city, and the army which followed them.

20 And they slew every one his man: and the Syrians fled; and Israel pursued them: and Benhadad the king of Syria escaped on an horse with the horsemen.

21 And the king of Israel went out, and smote the horses and chariots, and slew the Syrians with a great slaughter. This story is a bit of a puzzler. Ahab was a very wicked king...record-setting wickedness. Yet, he receives some assistance from a prophet of God in this passage. Israel makes a preemptive strike on Syria. As rotten as Ahab was, God spoke to him through an unnamed prophet and told him that he would prevail. Why? To prove the power of the one true God. When Ahab's meager army (7,000 men) shows up outside the city where Benhadad and his men are camped, drunken Benhadad thinks that perhaps this small contingent from Ahab has come in peace. Yet, as Benhadad's men approach, they are all slaughtered as they flee; Benhadad manages to escape.

Syria clashes with Israel - round #2 (1 Kings 20:22-30)

22 And the prophet came to the king of Israel, and said unto him, Go, strengthen thyself, and mark, and see what thou doest: for at the return of the year the king of Syria will come up against thee.

23 And the servants of the king of Syria said unto him, Their gods are gods of the hills; therefore they were stronger than we; but let us fight against them in the plain, and surely we shall be stronger than they.

24 And do this thing, Take the kings away, every man out of his place, and put captains in their rooms:

25 And number thee an army, like the army that thou

hast lost, horse for horse, and chariot for chariot: and we will fight against them in the plain, and surely we shall be stronger than they. And he hearkened unto their voice, and did so.

26 And it came to pass at the return of the year, that Benhadad numbered the Syrians, and went up to Aphek, to fight against Israel.

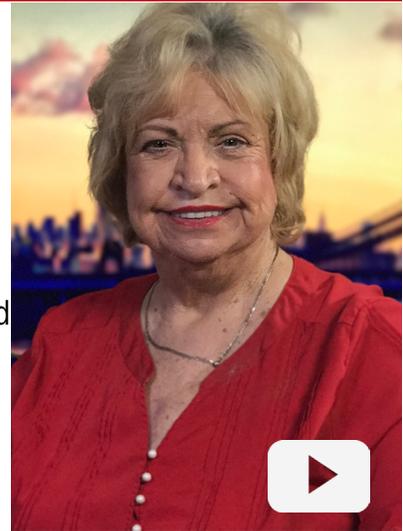

27 And the children of Israel were numbered, and were all present, and went against them: and the children of Israel pitched before them like two little flocks of kids; but the Syrians filled the country.

28 And there came a man of God, and spake unto the king of Israel, and said, Thus saith the LORD, Because the Syrians have said, The LORD is God of the hills, but he is not God of the valleys, therefore will I deliver all this great multitude into thine hand, and ye shall know that I am the LORD.

29 And they pitched one over against the other seven days. And so it was, that in the seventh day the battle was joined: and the slew of the Syrians an hundred thousand footmen in one children of Israel day.
30 But the rest fled to Aphek, into the city; and there a wall fell upon twenty and seven thousand of the men that were left. And Benhadad fled, and came into the city, into an inner chamber.

How had Israel prevailed against Benhadad's massive army? Verses 23-25 seem to indicate that Benhadad's war cabinet was not made up of the brightest people. They had determined that Israel's "gods" were hill specialists; Syria's gods were plains specialists. This second round of warfare must be fought in the open field. One more thing - those kings that led the troops the first time didn't know what they were doing; the second time they put captains in their places. Boom - same result - total defeat! Can you believe the big bully King Benhadad, who flexed his muscles before the war, is now pleading for his life? What a yellow-bellied coward!

Note regarding "sons of Belial" in verse 10: While the KJV frequently transliterates the Hebrew word, "Belial," as a proper name, in fact it is a general Hebrew word meaning worthless or wicked. Seeing it capitalized, one might get the impression that it was the name of a pagan god, but not so.

Last week I listed five of the Universities getting the most money from the federal government to pay for all corruption to come to light. Below are more. Anoint with oil and call forth all godlessness governing these institutions.

Federal funds could be a money laundering scheme to make lawless lawmakers rich. No oversight, it appears. Our youth are the target to dismantle our U S Constitution based on lying Communist Professors. U S Citizens are paying top dollar for their education creating insurmountable debt while illegals and non citizens pay nothing. Politicians and bankers are getting richer. This corruption and abuse of power must be exposed. Federal agencies need to be abolished that are funding the agenda of democrats. *(More on this agenda next week).*

Universities Getting the Most Money from the Federal Government By Evan Comen, Michael B. Sauter, Samuel Stebbins and Thomas C. Frohlich March 22, 2017 Source: Thinkstock

20. Yale University
 > Total federal funds: \$480.2 million
 > Annual R&D expenditure: \$803.0 million
 > 2015 enrollment: 12,385
 > 2016 endowment: \$25.4 billion

The federal government transferred \$480.2 million in grant and contract money to Yale University in 2015, a larger sum than all but a handful of universities. The remaining \$477.1 million were grants and contracts for research and development.

19. Ohio State University
 > Total federal funds: \$488.0 million
 > Annual R&D expenditure: \$817.9 million
 > 2015 enrollment: 58,663
 > 2016 endowment: \$3.6 billion

With total enrollment approaching 60,000 students, Ohio State University is one of the largest universities in the country. It is also one of the largest recipients of federal dollars. The U.S. Department of Health and Human Services is the university's largest source of federal funding. Ohio State spent \$817.9 million on R&D in 2015, \$446.0 million of which came from the federal government.

18. Massachusetts Institute of Technology
 > Total federal funds: \$491.4 million
 > Annual R&D expenditure: \$930.7 million
 > 2015 enrollment: 11,331
 > 2016 endowment: \$13.2 billion

MIT is one of the world's premier research institutions, and the money the U.S. government grants the university each year suggests as much. The school spent \$930.7 million on R&D in 2015, more than half of which was provided by the federal government.

17. University of Minnesota
 > Total federal funds: \$505.3 million
 > Annual R&D expenditure: \$880.6 million
 > 2015 enrollment: 50,678
 > 2016 endowment: \$3.3 billion

One of the largest schools in the country, the University of Minnesota had a total of 50,678 graduates and undergraduates enrolled in the Fall of 2015. While the federal government transferred \$476 million in research grants to Minnesota in 2015

16. University of California, Los Angeles
 > Total federal funds: \$535.3 million
 > Annual R&D expenditure: \$1.0 billion
 > 2015 enrollment: 41,908
 > 2016 endowment: \$1.8 billion

The University of California system is one of the strongest research bodies in the country. The university system was granted 489 patents in 2015, the most of any academic body worldwide. University of California, Los Angeles, the largest of UC's 10 campuses, received \$535.3 million in federal grant money in 2015. Roughly 69% of federal funding for UCLA R&D programs comes from the Department of Health & Human Services, which includes the National Institutes of Health.

15. University of California, San Francisco
 > Total federal funds: \$535.5 million
 > Annual R&D expenditure: \$1.1 billion
 > 2015 enrollment: 3,107
 > 2016 endowment: \$1.1 billion

The San Francisco campus of the University of California school system is just a graduate school, and as a result is the smallest school on this list by far, with a Fall 2015 enrollment of just 3,107. Despite its size, it is one of only 10 higher education institutions in the U.S. to spend more than a \$1 billion on R&D in 2015. That year, the school

received some \$535.5 million in federal grants. As a result, the vast majority of federal research dollars the school receives come from Department of Health and Human Services.

14. Harvard University

- > Total federal funds: \$550.5 million
- > Annual R&D expenditure: \$1.0 billion
- > 2015 enrollment: 29,652
- > 2016 endowment: \$34.5 billion

While most federal R&D grants are directed to science and engineering projects, Harvard may have more independence in its research due to its \$34.5 billion endowment — the largest of any academic institution. Harvard dedicates an estimated 9.6% of its R&D spending to the social sciences, roughly three times the 3.4% average for all universities. are largely funded by the Department of Health and Human Service.

13. University of Wisconsin-Madison

- > Total federal funds: \$551.4 million
- > Annual R&D expenditure: \$1.1 million
- > 2015 enrollment: 42,716
- > 2016 endowment: \$2.4 billion

University of Wisconsin-Madison received \$551.4 million from the federal government in 2015, which comprised nearly half of the school's total R&D spending that year. The school spends most of its R&D dollars on life sciences research, including a substantial amount to biology. The university is home to a one-of-a-kind 1,700 acre arboretum described as the oldest and most diverse restored ecosystem collections in the world. Of the school's government R&D funding, 51.3% comes from the Department of Health and Human Services, and 16.8% is granted by the National Science Foundation.

12. Georgia Institute of Technology

- > Total federal funds: \$562.6 million
- > Annual R&D expenditure: \$765.4 million
- > 2015 enrollment: 25,034
- > 2016 endowment: \$1.8 billion

Georgia Institute of Technology is one of the largest research universities in the world. Georgia Tech was awarded 72 patents in 2015, among the most of any academic institution worldwide.

11. Duke University

- > Total federal funds: \$562.8 million
- > Annual R&D expenditure: \$1.0 billion
- > 2015 enrollment: 15,984
- > 2016 endowment: \$6.8 billion

Duke University received \$562.8 million in federal research funding in 2015, just over half of its total R&D budget. Duke's endowment of \$6.8 billion is one of the nation's largest.

5. University of California, San Diego

- > Total federal funds: \$643.0 million
- > Annual R&D expenditure: \$1.1 billion
- > 2015 enrollment: 32,906
- > 2016 endowment: \$536.1 million

Several University of California campuses are among the largest recipients of federal grants in the country. UC San Diego is not the largest UC school, but the university received about \$108 million more in federal grants than the next largest federal funding recipient in the UC system. As is the case for all the schools receiving the most money from the federal government, the vast majority of San Diego's federal funding comes through R&D grants.

4. Stanford University

- > Total federal funds: \$679.6 million
- > Annual R&D expenditure: \$1.0 billion
- > 2015 enrollment: 16,980
- > 2016 endowment: \$22.4 billion

While the federal government provides Stanford most of its R&D funding, private corporations provide a relatively large share of the university's research funding. An estimated 8.8% of all Stanford R&D spending is funded by private businesses, one of the largest shares of any university.

24/7 Wall St. States With the Most Gun Violence

3. University of Michigan

- > Total federal funds: \$756.1 million
- > Annual R&D expenditure: \$1.4 billion
- > 2015 enrollment: 43,651
- > 2016 endowment: \$9.7 billion

One of the largest schools in the in the country, the University of Michigan receives significant federal funding. The school received over three-quarters of a billion dollars in 2015 from a range of government agencies, including the Department of Defense, the National Science Foundation, the Department of Energy, and the Department of Health and Human Services. The University of Michigan allocated 10.9% of of its \$1.4 billion R&D budget to social sciences, a larger share than any other school on this list.

Kane Hall, University of Washington

2. University of Washington

- > Total federal funds: \$960.6 million
- > Annual R&D expenditure: \$1.2 billion
- > 2015 enrollment: 45,408
- > 2016 endowment: \$3.0 billion

Seattle's University of Washington is one of the larger postsecondary institutions in the country, with enrollment over 45,000. The university received more than \$960 million in federal funding. However, like most schools on this list, most federal funds disbursed to UW go to research and development. The university spent approximately \$1.2 billion on research and development, \$907 million of which came from the U.S. government.

1. Johns Hopkins University

- > Total federal funds: \$2.0 billion
- > Annual R&D expenditure: \$2.3 billion
- > 2015 enrollment: 22,686
- > 2016 endowment: \$3.4 billion

With \$2.0 billion in federal R&D funding in 2015, Johns Hopkins University is the largest university research partner of the federal government research partner of the federal government.

The Radically New America The America of today is radically different, and the changes have taken place with startling rapidity. Incredibly, in just over 50 years since the decade of the 1960s, we have become a nation in full-blown, open rebellion against God. Today: We worship the Almighty Dollar. Greed has become our national motivator. Sex is our obsession. Gambling is our national past time.

1. We are the world's largest consumer of illegal drugs.
2. We have banned God from our schools.
3. We have declared God off limits in the public arena.
4. We are teaching our children the fantasy of evolution. We are slaughtering babies in the name of "freedom of choice" for women.
5. We have glamorized homosexuality.
6. We have legalized same-sex marriage.
7. We are in the process of legalizing marijuana.

And we have become the moral polluter of planet earth with our violent, immoral and blasphemous movies and TV programs.

In summary, we are a nation that has rejected its Christian heritage and has replaced that precious heritage with a crude, paganized culture. We are a rebellious nation that is thumbing its nose at the Creator God who showered us with unparalleled blessings for over 300 years.

Living for Christ in the End Times: Coping with Anarchy and Apostasy:1 We have expelled God from the life of our society, and the result is an avalanche of wanton violence and immorality. We have lost our moral compass, and we are raising a generation of moral pygmies.

The same is true of the raging apostasy within the Church. The term, Evangelical, has lost its meaning, as some who claim to be Evangelicals are proclaiming that there are many roads to Heaven and there is no Hell. A Second Reformation is going on in the Church today, but unlike the first, which was based on a call to return to the Bible, this new reformation is calling people to jettison the Bible in behalf of their own feelings and beliefs.

As the Church grows increasingly weak from its internal rot, society continues to plunge into darkness. I would therefore assert without hesitation that we are a nation begging for destruction.

How God Deals With Rebellious Nations I say that because the Bible clearly reveals that God has a definite way of dealing with rebellious nations.2 First, He calls them to repentance through prophetic voices. And if the people refuse to respond in repentance, then God will send remedial judgments. If the rebellion persists, there comes a point of no return when God will deliver the nation from judgment to destruction..
