PROCESS

RESULT

	21/9	24/9 – 28/9	1/10 – 5/10	8/10 – 12/10	15/10 – 19/10	22/10 – 26/10	29/10 – 2/11
Introduction	Grade 3	Grade 4	Grade 5				
Result analysis		Grade 3	Grade 3 Grade 4	Grade 3 Grade 4 Grade 5	Grade 4 Grade 5	Grade 5	
Finalizing					Grade 3	Grade 4	Grade 5

RESULT

 Advantages	 Disadvantages	 Potential	 Recommendation	 Experiences
<ul style="list-style-type: none">- Support from stakeholder: HUS's lecturers, CSRD- The enthusiasm of the staffs and students from VN	<ul style="list-style-type: none">- Limitation of budget- Out of control the students who join in this project to use the garbage bins- Students didn't spread to their family and sort at home- The possibility to maintain at school is low	<ul style="list-style-type: none">- Profit from recyclable materials- Affect not only on students but also on the staffs- The background to implement the same projects in another schools, especially primary school	<ul style="list-style-type: none">- School should create a team to maintain this activity- HEPCO should invest trucks to collect different types of trash and a treatment plant- Prepare several different plans for each plan- Attract more people to become team members	<ul style="list-style-type: none">- More flexible to connect to stakeholders- More appropriate to distribute the team member.- Stricter connection with the teachers

ACKNOWLEDGEMENT

A complete project would not be done without any assistance.
Firstly, we would like to say thank you to the SAUNAC project and the lecturers who gave valuable knowledge and supported us during the process of project.
Secondly, we also appreciate all the help of the stakeholders who gave a number of advices from the beginning of the project.
Finally, we deeply thanks come to all volunteers from HUIS for helping us till the end of the project.
