Thanks Zach. I appreciate some information is deemed sensitive. Where information is not passed please give the name, position and under what authority the information has been withheld or reason it's not able to be passed to myself on behalf of the Greater Manchester service users / GMCA public.

We are dealing here with a matter of national security and the health and welfare of the Nation.

Specifically in this case. GMCA service users. I will be adding this data to the GMP reference number passed yesterday. These are not the usual set of circumstances. Thanks

Bruce.
