The j'adore signature line has 10 vibrant, true-to-color & pre-neutralized pigment colors, plus ONE warm-up color.

This color chart does not replace PMU Color Theory Education, however, it simplifies your day to day operation by taking the guess-work out of what modifier to use when.

J'adore Signature Pigments are specifically designed for  
**MICROBLADING.**

Each pigment jar serves approx. 50 treatments.

## Tips on using J'adore Signature Pigments

- Scoop required amount with spatular or popsicle stick
- Close jar immediately after dispensing
- Only use a pea-size amount of product
- Dip minimally into pigment
- Dry-blade first, then rub pigment in (not a must, however, this method increases ease of application)

[www.jadorebrows.com](http://www.jadorebrows.com)

407.688.3250

Even though the J'adore Signature Pigments are 100% Plant-Based, it does not rule out possible allergies.

Patch tests should be performed behind the ear in the scalp or directly on the eyebrow and should sit for no less than 24 hours.

J'adore Signature Pigments are for PROFESSIONAL USE ONLY!

Shelf Life: Unopened Containers should be discarded after the printed expiration date on the container. Opened jars should be discarded after ONE (1) year of opening.

### **Additional Factors:**

- Do not blend different pigment brands together.
- Always prevent cross-contamination by never dispensing at contaminated workstation.
- Never handle jars with contaminated hands.
- Securely cap jars immediately after dispensing color to prevent contamination and prevent the pigment from drying out.
