

MARCH FOR CLIMATE JUSTICE PILIPINAS
Our Demands

We demand the following from the Philippines and all governments in the international climate talks:

- Address the urgency of the climate crisis with decisive, just, fair and ambitious actions nationally and globally
- Pursue transformation of energy systems –no to dirty and harmful energy; shift to clean and renewable energy for people and communities
- Protect peoples' rights to food, water and the commons.
- Guarantee the rights of all people and communities; deliver justice and address the impacts of climate including those particular to women and indigenous communities.
- Ensure a just transition for workers and communities.
- Deliver climate finance needed to empower people to deal with climate impacts, loss and damage and make the transition to sustainable development pathways.
- Reject false solutions.
- Set global targets for mitigation actions to keep temperature rise below 1.5 degrees; ensure equitable and fair-sharing of mitigation actions among countries and within countries; deliver urgent short terms actions.
