The problem

Teens have no money

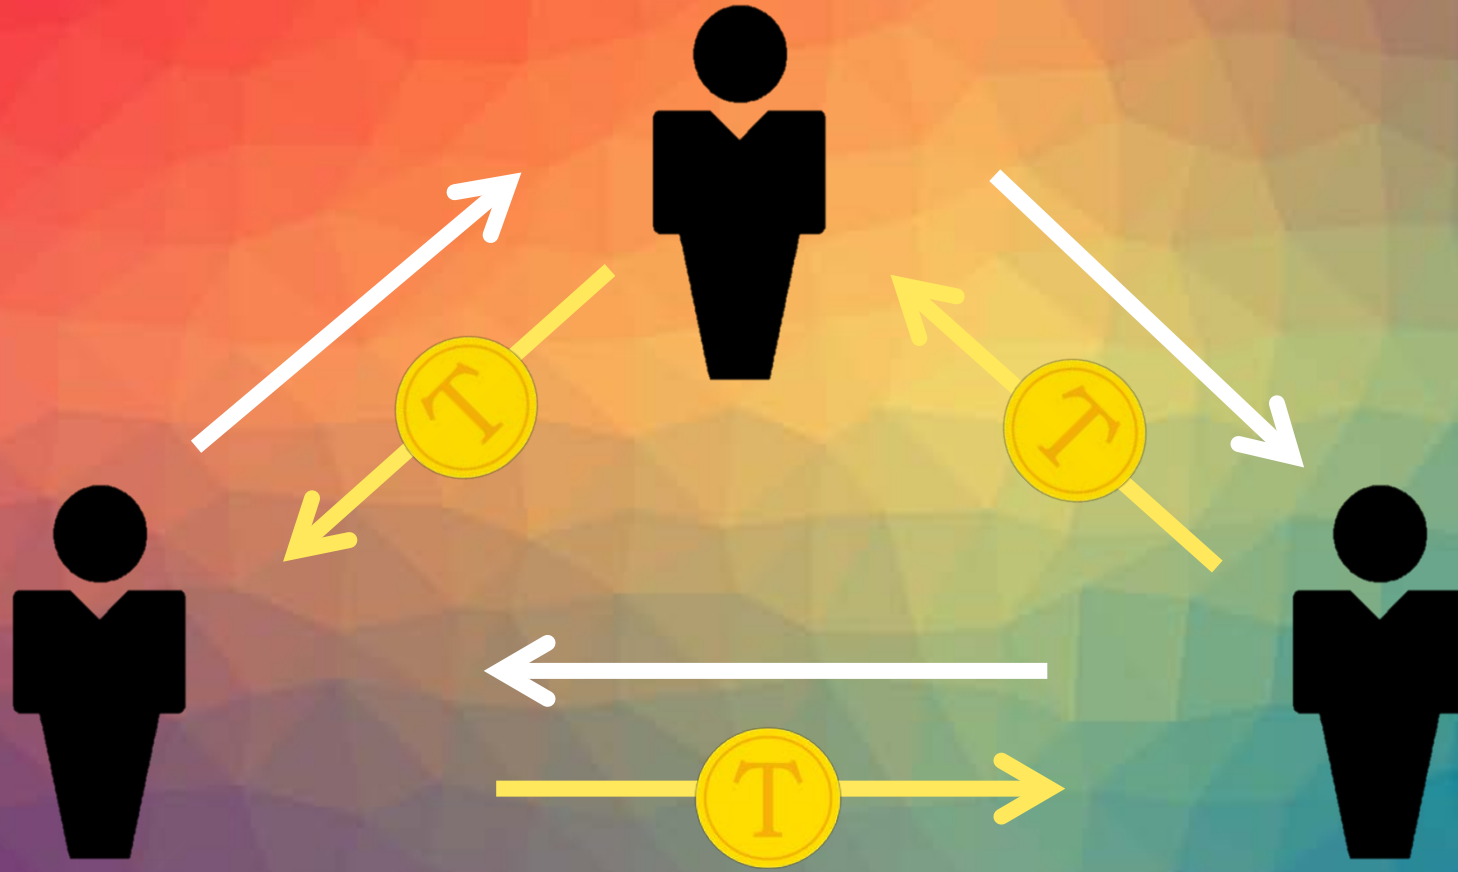

The solution

A platform that Enables teens to trade favors and products using a new virtual currency

ToVa coins

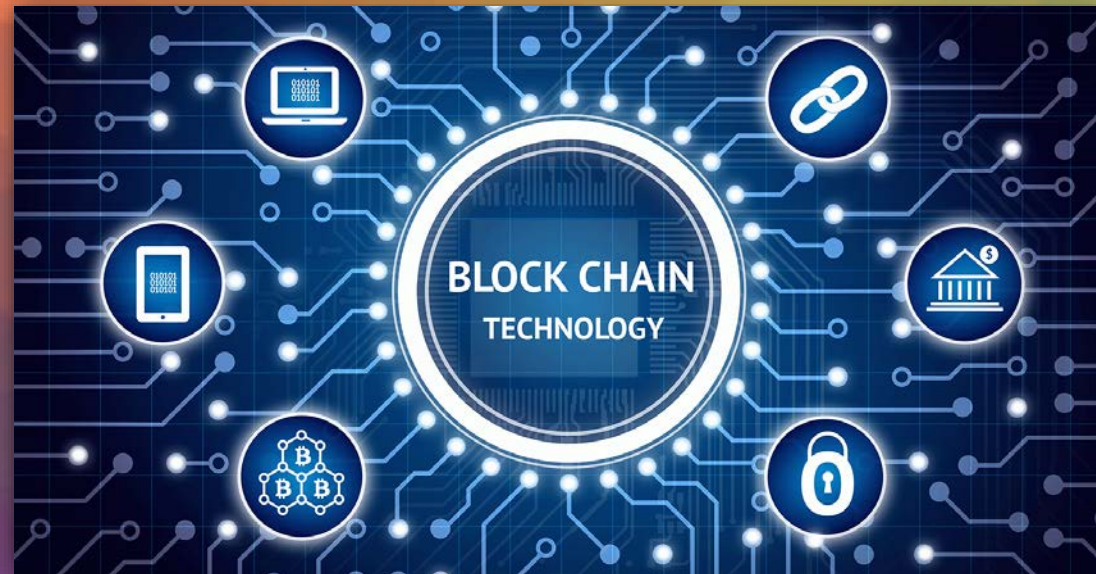

The solution

Why Blockchain

- Our platform is based on blockchain
- Enabling the transfer of ToVa coins and information in a safe, productive and transparent way

How Does It Work?

The protocol filters by:

- The ability of a person to do the favor
- Mobility
- Circle of Friends

The account verification is done by

- Sending an SMS

The Market
