Recommended platform specs: Windows XP, Pentium 3, 256MB ram  
10GB HD, Internet browser access, 640x480 screen resolution

Input device requirements: 1 button & a pointing device

Game setup difficulty: Low

Genre: Arcade

**General Description:** Maze Muncher is a one switch adaptation of the arcade classic, Pacman.

For those unfamiliar with it:

You control a picture of a face that you guide through a maze munching dots that increase your score. You must manage your timing to avoid the baddies which will kill you if you run into them. Every now and then you'll be able to munch a diamond which makes the baddies munchable! So the tables are turned and you can try and kill off as many baddies as you can before the diamond effect runs out.

Once you munch all of the dots, you progress to the next level.

Pacman is a very basic game, but many find it very addictive.
