10GB HD, Internet browser access, 1024x768 screen resolution

Input device requirements: One button and a pointing device.

Game setup difficulty: Low

Genre: Arcade

General Description: Medieval Siege is a game where the player has to knock down a castle with a medieval siege weapon called a trebuchet. It's easy to play, but requires good timing when releasing the projectile. The game can get a little frustrating otherwise, and to save everybody the time and frustration;

The trick to shooting straight with a trebuchet is you must release its' stone when the arm reaches a perfect 90 degree angle.
