Website/link to game: <http://www.oneswitch.retroremakes.com/switch-game/PART-ONE/SLOTBAHN.zip>

Recommended platform specs: Windows XP, Pentium 4, 512MB ram
10GB HD, Internet browser access, 800x600 screen resolution

Input device requirements: 1 button and a pointing device (using on screen keyboard)

Game setup difficulty: Low

Genre: Racing

General Description: Slotbahn, or 'slot car' is a quirky game designed to be a really far out microcosmic experience of scalextrics car racing. As the cars are on a track, the player only needs to control the throttle to maximize speed, while still keeping the car on the track around bumps and bends.
