

ANNOUNCEMENT

TAIGER Partners with Bahrain FinTech Bay

Dear Fintech,

We are pleased to announce TAIGER's partnership with Bahrain FinTech Bay (BFB) as a Venture Acceleration Partner, which grants TAIGER access to a platform of an extensive network of financial institutions, corporates and sovereign entities in the Middle East and North Africa (MENA) region.

This partnership marks a significant milestone for both TAIGER and BFB. With BFB's wealth of experience in technology advisory and incubation, and TAIGER's deep expertise in solving challenging business problems with applied Artificial Intelligence (AI), we believe the partnership would bring forth tremendous value to all executives and organizations in that region.

The partnership also aims to extend TAIGER Academy's specialized training programs in applied AI to complement BFB's FinTech Talent Program, with a vision to strengthen our efforts in AI education, upskilling and retraining of professionals in the MENA region.

Said Dr. Sinuhé Arroyo, Founder and CEO of TAIGER: "Knowledge Work Automation is right at the frontier of technology, and organizations are embracing automation across all business processes that have long been risky, costly and inefficient. We're excited to kickstart our partnership with Bahrain FinTech Bay to expand our global reach and presence, and ultimately, to create value for banks, insurers, and organizations in the Middle East and North Africa region."

About TAIGER

TAIGER® is the market leader and pioneer of Knowledge Worker Automation(TM). Our mission is to help organizations optimize operational efficiencies by automating complex cognitive tasks. We provide unparalleled accuracy in information extraction for industry leaders in financial services, and government. TAIGER® was recognized as Gartner Cool Vendor in 2017.
