

Special Session on “*Advanced Information Systems Engineering*”

ICCMIT '19 - The 5th International Conference on Communication, Management and Information Technology March 26-28, 2019, Vienna, Austria

TOPIC OF THE SPECIAL SESSION

Information systems engineering is to access the development of information systems using information technology directly from the scientific point of view to meet the needs of society within the global standards. The set of objectives to be achieved in this session can be determined as follows:

Topics of the Session:

- Arabic Language Computing
- Theoretical and practical knowledge of the design, development and management of information systems,
- Techniques based on Artificial Intelligent, mathematics, computers, physics and engineering methods needed for information systems,
- Data mining and Biomining approaches and techniques also design and develop Database systems
- Effective ability of oral and written communication to information technology during system development and process stages, and
- Can work in interdisciplinary teams with high communication ability.

ORGANIZED AND CO-CHAIRIED BY

Prof. Ayad Ghany Ismaeel
ayad.ghany@uoalkitab.edu.iq

Author' s schedule :

- Paper deadline submission date
December 31, 2018
- Notification of acceptance
January 15, 2019
- Camera ready submission date
January 22, 2019
- Conference registration date
January 31, 2019
- Conference Date
March 26-28, 2019
