# Marinated in History

Inspired by childhood memories and influenced by exotic spices. Naan & Kabob is a family dream of a new home away from home. The family who followed the footsteps of the spice route merchants on a journey of a lifetime from Afghanistan in the East to Canada in the West, through other central Asian countries. An enriching journey that set sail to the unknown and landed at Naan & Kabob.

The family created Naan & Kabob with a vision to become a hub that connects civilizations through delicious food and inviting setting. A crossroad at the heart of the Spice Route where people of diverse cultures and languages meet to celebrate a world of flavours and a legacy of homemade recipes.

## Our *Fresh* and *Exquisite* Food

One probably thinks of spices simply as flavouring for food. Yet, the word “spice” comes from the Latin *spices*, which means an item of special value. To us at Naan & Kabob, our food is of special value. We carefully source our fresh ingredients and produce from local markets. Passionately craft recipes to trigger nostalgic images of our childhood. Marinate our fresh, antibiotic free, halal meat with exotic spices of the East to instil the authentic flavours of home. We like to think of our menu as an artist’s canvas, painting a flavourful masterpiece by skillfully mixing aroma and freshness to bring priceless moments of joy in every bite.
