

WHISTLER COOKS WEDDING

Cabin Couple

"Our friends are so wild we probably shouldn't be anywhere within cell reception or the general population. Just give us the food and we'll head into the mountains to party - it's safer for everyone this way."

You're welcome to come to Whistler Cooks and grab your meal to-go or we can drop it off for a small fee. The entrees will come cold and ready to be re-heated in recyclable pans at your location (oven required) and the appetizers/salads come on recyclable service trays (which double as pillows for your friends who fall asleep "under the stars").

We can provide biodegradable plates/cutlery (\$1.50 per person) or you can provide your own. This menu requires a bit of work (heating, setting it out to be eaten, tidy-up) and some tools (you will need to have your own utensils; tongs and spoons)

Your menu (PICNIC Menu Items):

- mixed green salad with balsamic blackberry vinaigrette
- french baguette
- Pemberton potato salad
- house-smoked pulled pork in bbq sauce with buns
- vegan feijoada with basmati rice (southern black bean dish - very tasty)
- dessert platter: freshly baked squares (think: brownies, salted caramel bars, lemon-coconut bars)
- fresh fruit platter

Your estimated price: **\$40-50 per person** (based on us delivering the food and providing your biodegradable plates/cutlery)
