STONE GRILL

the concept....

Each customer is provided with an individual Stone Grill set including a heated hot stone, a top quality and delightfully tender cut of Argentinean meat and three delicious sauces.

When the meat touches the stone, it seals instantly trapping all the juices and flavours of the meat inside. The meat will not burn and the stone will remain hot throughout your meal, ensuring that your first bite will be just as succulent and mouth-watering as your last. Each piece you cut will be cooked almost instantaneously to your personal perfection. For the most health conscious of you, this method of cooking is one of the healthiest around.
No oils or fats are used, making it a guilt-free meal!

please note....

All of our Stone Grill meals include one side order and 3 sauces
