

Print onto A4 thin card.  
Cut out the rectangle along the thick outline.

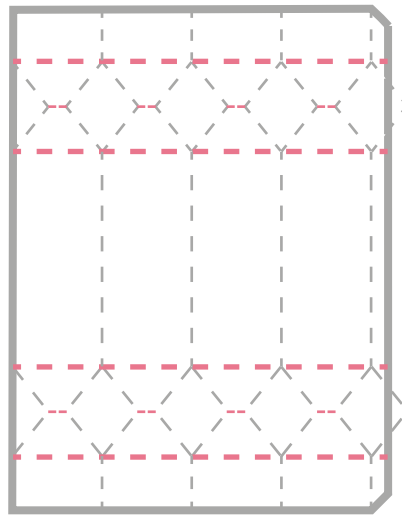

Using a craft knife, cut out the diamond shapes, inc the ones off the edge of the page.

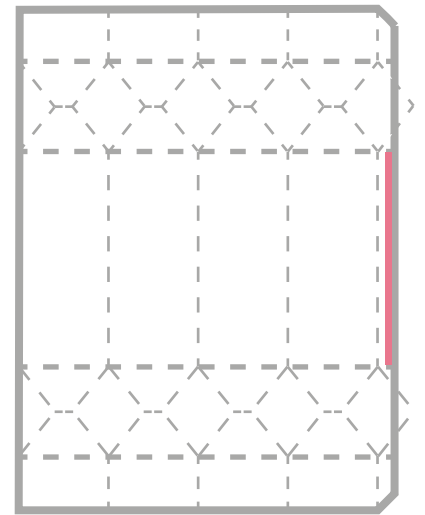

Using a ruler, score along the horizontal & vertical dotted lines.

Fold along the long vertical lines to create the cracker shape, with the design on the outside.

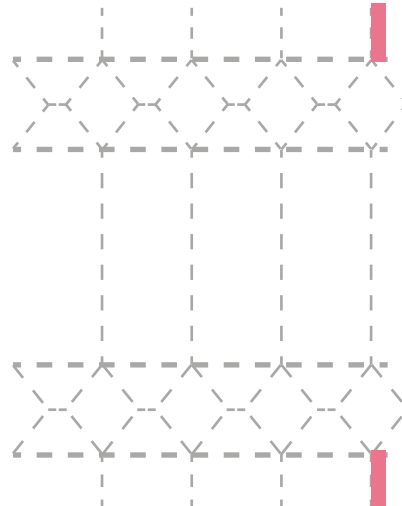

Fold along the horizontal lines to create the ends of the cracker.

Glue or use sticky tape along the edge of the thin overlap strip & stick your cracker together.

At this point place your treats inside the cracker tube.

Stick the ends of the cracker together, along the thin overlap strip & push the ends of the cracker in a little.

You should now have your finished cracker. Tie ribbon around each end to finish.
